

PREPARATION OF FINAL ACCOUNTS OF SOLE PROPRIETORS

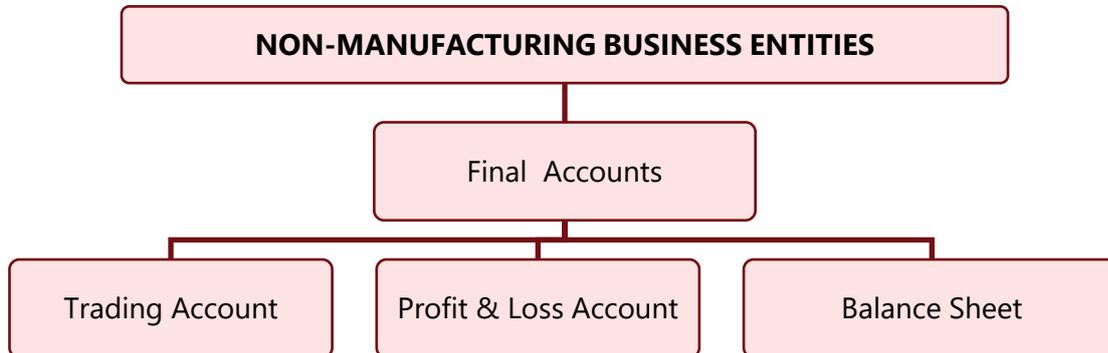

UNIT – 1 FINAL ACCOUNTS OF NON-MANUFACTURING ENTITIES

LEARNING OUTCOMES

After studying this unit, you would be able to:

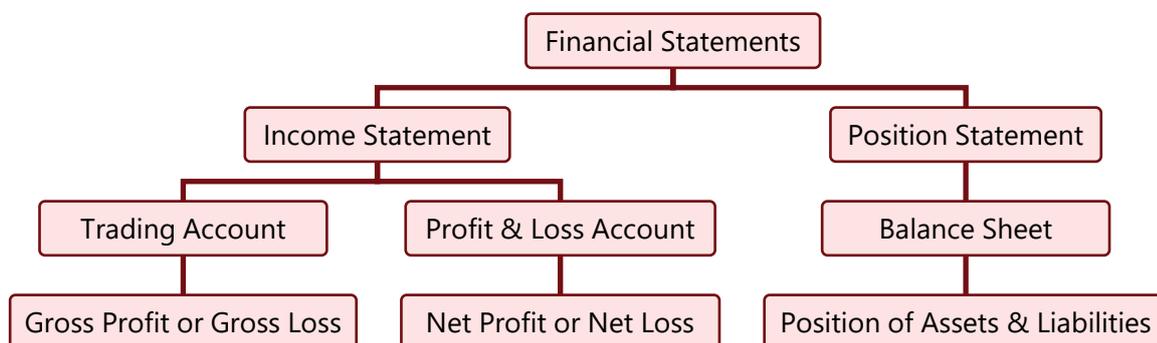

- ◆ Draw final Accounts of Non- manufacturing entities.
- ◆ Learn the relationship between Profit and Loss Account and Balance Sheet.
- ◆ Understand the Trading Account items. This will help you to learn which of the transactions and events should be shown in the Trading Account.
- ◆ Understand the items shown in the Profit and Loss Account. By that you will learn the technique of preparing Profit and Loss Account and deriving the Profit and Loss balance.
- ◆ Learn how to adjust outstanding and pre-paid expenses, accrued income and income received in advance.
- ◆ Understand the items to be shown in the balance sheet. Also learn the classification of assets and liabilities and the order by which they are presented in the Balance Sheet.

UNIT OVERVIEW

1.1 INTRODUCTION

Non-manufacturing entities are the trading entities, which are engaged in the purchase and sale of goods for profit without changing the form/ underlying use of such goods. In other words, non-manufacturing entities do not process the goods purchased rather sell them in their original form. Meanwhile the entity indulges in some liabilities, makes some assets and also incurs some expenses like salaries, stationery expenses, advertisement, rent etc. to run the business. At the end of the accounting year, the entity must be interested in knowing the results of the business. To ascertain the final outcome of the business i.e., the income and financial position, they prepare financial statements at the end of the accounting year.

Financial Statements are the systematically organized summary of all the ledger account heads and presented in such a manner that it gives detailed information about the financial position and the performance of the entity. As seen above, through categorization of Financial Statements into Income & Position Statement, the profit or loss is measured at two levels:

- (a) Gross Profit or Gross Loss
- (b) Net Profit or Net Loss

The profit or loss of the enterprise is obtained through the preparation of **Income Statement i.e. Trading and Profit & Loss A/c**

The financial position of the business enterprise is assessed by measuring the assets, liabilities and capital of the enterprise and the same is communicated to the users of financial statements. Financial position of the enterprise can be known through the preparation of the **Position Statement i.e. Balance Sheet.**

Comparison between Income Statement and Position Statement

Income Statement	Position statement
Profit or loss is presented in the Income Statement prepared at the close of the financial year	It exhibits assets and liabilities of the business as at the close of the financial year.
Income Statement is sub-divided into following two parts for a non-manufacturing concern: (i) Trading account; and (ii) Profit and Loss account	Apart from balance sheet, to assess the financial position of the business, sometimes additional statements are also prepared like cash flow statement, statement of changes in equity etc. which is not mandatory for non-corporate entities. These additional statements are prepared for the better understanding of the financial position of the business.
Income Statement discloses net profit or net loss of the business after adjusting from the income earned during the year, all the expenditures of the business incurred in that year.	Position statement discloses the assets and liabilities position as on a particular date.

 **1.2 PREPARATION OF FINAL ACCOUNTS**

The principal function of final accounts (Trading Account, Profit and Loss Account and the Balance Sheet) is to exhibit truly and fairly the performance and the financial position of the business to which they relate. In order that these may be properly drawn up, it is essential that a proper record of transactions entered into by the business during a particular accounting period should be maintained. The **BASIC PRINCIPLES** in regard to accumulation of accounting period data are:

- (i) a distinction should be made between capital and revenue receipts and payments.
- (ii) income and expenses relating to a period of account should be separated from those of another period.

- (iii) different items of income and expenditure should be accumulated under significant heads so as to disclose the sources from which capital has been procured and the nature of liabilities, which are outstanding for payment.

Having regard to these basic principles, the various matters to which attention should be paid for determining the different aspects of transactions, a record of which should be kept, and the different heads of account under which various items of income and expenditure should be accumulated, are stated below:

- (a) **Distinction between personal and business income:-** Since the final statements of account are intended to show the profitability of the business and not that of its proprietors, it is essential that all personal income and expenditure should be separated from business income and expenditure.
- (b) **Distinction between capital and revenue expenditure:-** A distinction should be made between capital and revenue, both receipts and expenditure. Different types of income and expenditure should be classified under separate heads. Assets should be included in the Balance Sheet by following accounting principles and accounting standards. Likewise, a provision for expenses which have accrued but not paid, should be made by estimation or otherwise on the same basis as in the previous year.
- (c) **All material information to be disclosed:-** Every information, considered material for evaluating the performance of the business or its financial position, should be disclosed. For example, when the labour charges have increased substantially on account of bonus having been paid to workmen, the amount of bonus paid should be disclosed. Similarly, If there are substantial write-offs in inventory due to any reason, it should be shown separately.
- (d) **Record only current period transactions:-** Though the record of transactions should be maintained continuously, at the end of each accounting period, the transactions of the closing accounting period should be cut off from those of the succeeding period.
- (e) **Only transactions completed before close of accounts should be given effect:-** It should be seen that only the effect of transactions, which were concluded before the close of period of account, has been adjusted in the accounts of the year. For example, when a sale of goods is to take place only after the goods have been inspected by the purchaser and the inspection had not been made before the close of the year, it would be incorrect to treat the goods as a sale in the accounts of the year.

Inter-relationship of the two statements

One of the points to be remembered is that of total expenditure incurred some type of expenditure appears in the Profit and Loss Account and some in the Balance Sheet. Consider few examples,

- Salaries paid for current year is shown on the Dr. side of Profit and Loss Account but outstanding salaries is shown on liabilities side of Balance Sheet and is added to Salaries paid and shown under Profit and Loss Account.

Profit & Loss A/c

Particulars	Amount ₹	Particulars	Amount ₹
To Salaries paid	25,000		
Add: Outstanding Salaries	<u>1,500</u>		
	26,500		

Balance Sheet

Liabilities	Amount ₹	Assets	Amount ₹
Outstanding Salaries	1,500		

- When a machine is purchased, that part of it which is attributable to the year considered as depreciation is debited to the Profit and Loss Account and the balance amount after reducing the amount of depreciation is shown in the Balance Sheet as an asset.

Profit & Loss A/c

Particulars	Amount ₹	Particulars	Amount ₹
To Depreciation	50,000		

Balance Sheet

Liabilities	Amount ₹	Assets	Amount ₹
		Fixed Assets	5,00,000
		Less:- Depreciation	<u>(50,000)</u>
			4,50,000

These illustrations show that the two statements, the Profit and Loss Account and the Balance Sheet, are thoroughly inter-related. The assets shown in the Balance Sheet are mostly only the remainder of the expenditure incurred after a suitable amount has been charged to the Profit

and Loss Account or the Trading Account. For preparing the two statements properly, it is of the greatest importance that the amounts to be charged to the Profit and Loss Account should be properly determined otherwise both statements will show an incorrect position. The principle that governs this concept is called the **Matching Principle**.

Matching Principle

This principle demands that expenses incurred to earn the revenue should be properly matched. This means the following:

- (a) If a certain revenue and income is entered in the Trading / Profit and Loss Account all the expenses relating to it, whether or not payment has been actually made, should be debited to the Trading / Profit and Loss Account. This is why at the end of the year an entry is recorded to bring into account the outstanding expenses. That is also the reason why the opening inventory of goods is debited to the Trading Account since the relevant sale is credited in the same account.
- (b) If some expense has been incurred but against it sale will take place in the next year or income will be received next year, the expense should not be debited to the current year's Profit and Loss Account but should be carried forward as an asset and shown in the Balance Sheet. It will be debited to the Profit and Loss Account only when the relevant income will also be credited. The same reason applies to depreciation of assets also. The part of the cost which is used to earn current year revenue is debited in same year.
- (c) If an income or revenue is received in the current year but the work against it has to be done and the cost in respect of it has to be incurred next year, i.e. income received in advance, such income or the revenue is considered to be of next year. It should be shown in the Balance Sheet on the liabilities side as "income received in advance" and should be credited to the Profit and Loss Account of the next year. E.g. Newspapers or magazines usually receive subscriptions in advance for a year. The part of subscription that covers copies to be supplied in the next year is treated as income received in advance.

An exception

There appears to be one exception to the rule that only such costs as have yielded or is expected to yield revenue should only be debited to Profit and Loss Account. For example, if a fire has occurred and has damaged the firm's property the loss must be debited to the Profit and Loss Account to the extent it is not covered by insurance. A loss, resulting from the fall of selling price below the cost or from some debts turning bad, must similarly be debited to the Profit and Loss Account. If this is not done the profit will be over-stated.

(NOTE: - The relevant entries and adjustments regarding the above three items are discussed in detail later in this unit.)

1.3 TRADING ACCOUNT

At the end of the year, as has been seen above, it is necessary to ascertain the net profit or the net loss. For this purpose, it is first necessary to know the gross profit or gross loss. Gross Profit is the difference between the selling price and the cost of the goods sold. For a trading firm, the cost of goods sold can be ascertained by adjusting the cost of goods still on hand at the end of the year against the purchases. It is done as follow:-

Opening Stock	***
Add:- Purchases (Net)	**
Add:- Direct Expenses	<u>**</u>

Less:- Cost of Goods Sold	<u>(**)</u>
Closing Stock	<u>***</u>

Suppose, in the first year, the net purchases (that is after deducting returns) total ₹1,00,000 and that ₹15,000 worth of goods (at cost) were not sold at the end of the year. The cost of the goods sold will then be ₹ 85,000. If in the next year purchases are ₹1,50,000, direct expenses are ₹10,000 and the cost of goods sold is ₹ 1,45,000 the closing stock will be ₹ 30,000 calculated as follows:

	₹
Cost of unsold goods at the beginning of the year	15,000
Purchases during the year	1,50,000
Direct Expenses	<u>10,000</u>
	1,75,000
Less: Cost of sold goods during the year	<u>1,45,000</u>
Closing Stock	<u>(30,000)</u>

Gross profit is usually ascertained by preparing a Trading account. The format of Trading Account can be shown as below:-

Trading Account of.....for the year ended.....

		₹			₹
To Opening Stock		XXX	By Sales	XXX	XXX
To Purchases	XXX		Less: Returns Inwards	XXX	XXX
Less: Returns outwards	XXX	XXX	By Closing Stock		
To Direct expenses:		XXX	By Gross Loss c/d*		

Freight & Carriage		XXX		
Customs & Insurance	XXX			
Wages	XXX			
Gas, Water & Fuel	XXX			
Factory Expenses	XXX			
Royalty on production	XXX	XXX		
		XXX		XXX

To Gross Profit c/d*

*Only one will appear

If in the above example net sales, i.e., after adjustment for sales returns, is ₹ 2,00,000 then the gross profit will be ₹ 55,000, i.e., ₹2,00,000 – ₹ 1,45,000. This profit is called gross profit since from it indirect expenses have still to be deducted for knowing the net profit. Now, for the same example Trading account will appear as follows:-

Trading Account for the year ending

	₹		₹
To Opening Inventory	15,000	By Sales Account	2,00,000
To Purchase Account	1,50,000	By Closing Inventory	30,000
To Direct Expenses	10,000		
To Gross Profit carried to P & L A/c	55,000		
	2,30,000		2,30,000

Point to Remember:-

- ◆ The opening inventory and purchases are written on the debit side.
- ◆ Sales and the closing inventory are entered on the credit side.
- ◆ If there are any direct expenses then they should also be written on the debit side of the Trading account.
- ◆ If the balances of credit side is more, the difference is written on the debit side as gross profit. This amount will also be carried forward to the Profit and Loss Account on the credit side.
- ◆ In case of gross loss, i.e., when the debit side of the Trading Account exceeds the credit side, the amount will be written on the credit side of the Trading Account and transferred to the debit side of the Profit and Loss Account.

Trading Account Items

In a trading firm like a wholesaler, the main business consists of buying and selling the same goods. In addition to the amount of the opening inventory, the trading account will also be debited with all expenses incurred in bringing the goods to the godown of the firm (i.e. to the present condition and location) and in making them ready for sale.

For example, freight paid on purchases, cartage, octroi, etc. will all be debited to the Trading Account. The rule is that this account will be debited with all expenses incurred in bringing the goods to their present location and condition.

We shall now consider individual items:

- (1) Opening Inventory:** Since this was closing inventory of the last year, it must have been entered in the opening inventory account, through the opening entry. Therefore, it will be found in the trial balance. This item is usually put as the first item on the debit side of the Trading Account. Of course, in the first year of a business there will be no opening inventory.

Trading A/c	Dr.
To Opening Stock A/c	

- (2) Purchases and Purchase Returns:** The purchases account will have debit balance, showing the gross amount of purchases made of the materials. The purchase returns account will have credit balance showing the return of materials to the supplier. On the debit side of the trading account the net amount is shown as indicated (with assumed figures) :

	₹
To Purchases	3,00,000
Less : Purchase Returns	<u>(10,000)</u>
	2,90,000

Closing entry for this purpose is follows:

Purchases Return A/c	Dr.
To Purchases A/c	
(This Net Purchases is transferred to Trading account)	
Trading a/c	Dr.
To Purchase a/c	

It happens sometimes that goods are received but the relevant invoice is not received from the supplier. On the date of the closing of the account, an entry must be passed to debit the purchases account and credit the supplier with the cost of goods.

If Closing Stock appears in the Trial balance:-

The closing inventory is then not entered in the trading account, it is shown only in the balance sheet. This is because it has already been adjusted to arrive at Cost of Goods Sold.

To ascertain value of the closing inventory, it is necessary to make a complete inventory or list of all the items in the godown together with quantities. Of course, damaged or obsolete items are separately listed. To the list of finished goods, one should also add the goods lying with agents sent to them on consignment basis and also the goods sent on approval to customer.

The valuation principle is cost or net realisable value whichever is lower.

Taking inventory is quite a lengthy process. Strictly, immediately at the end of the year the taking of inventory should be completed. Sometimes, however this is done either a few weeks before or a few weeks after the closing. In such a case the value of the inventory thus taken must be adjusted to relate it to the closing date. The adjustment will be necessary because, in the meantime, purchases and sales must have been made. The main point to remember is that in respect of sales their cost has been established. Cost will be sales less gross profit.

Below is the summary for all transfer / closing entries to Trading a/c:

- (1) Trading Account Dr.
- To Opening Inventory Account
 - To Purchases Account
 - To Wages Account
 - To Freight on Purchases Account, etc.
- (2) Sales Account Dr.
- Closing Inventory Account Dr.
 - To Trading Account

At this stage Trading Account will reveal the gross profit, if the credit side is more, or gross loss if the credit side is less. The gross profit will be transferred to the Profit and Loss Account by the entry:

- Trading Account Dr.
- To Profit and Loss Account

The entry for gross loss, if there be any is :

- Profit and Loss Account Dr.
- To Trading Account

ILLUSTRATION 1

Trial Balance for the financial year (FY) ended 31st March 2022 of M/s Deepakshi shows following details:

Particulars	Debit (₹)	Credit (₹)
Purchase & Sales	10,00,000	12,00,000
Debtors & Creditors	5,00,000	4,00,000
Opening Stock	2,00,000	
Closing Stock	3,00,000	
Other Expenses & Incomes	7,00,000	9,00,000
Fixed Assets & Long Term Liabilities	25,00,000	6,00,000
Capital		21,00,000
	52,00,000	52,00,000

Additional Information: Creditors balance as on 1st April, 2021 is ₹ 3,00,000.

You are required to calculate cost of goods sold and amount paid to creditors during the year.

SOLUTIONi) **Calculation of Cost of Goods sold:**

Particulars	₹
Opening Stock	2,00,000
Add: Purchases (Closing stock already adjusted)*	10,00,000
Cost of Goods Sold	12,00,000

*Since, closing stock appears in Trial Balance, it means following entry has already been passed in books:

Closing Stock A/c	Dr.	3,00,000
To Purchases A/c		3,00,000

So, we can see purchases have already been reduced by the amount of unsold stock, therefore no more adjustment needs to be made on account of closing stock for computing Cost of goods sold (COGS).

ii) Calculation of amount paid to creditors:

Date	Particulars	₹	Date	Particulars	₹
31.3.22	To Bank A/c (Balancing Figure)	12,00,000	1.4.21	By Balance b/d	3,00,000
31.3.22	To Balance c/d	4,00,000		By Purchases A/c (Note:1)	13,00,000
		16,00,000			16,00,000

Note: 1) Purchases made during the year can be computed as:

Particulars	₹
Purchases as per Trial Balance	10,00,000
Add: Closing Stock already adjusted	3,00,000
Purchases made during the year	13,00,000

Students may note that in case Closing Stock is not mentioned in Trial Balance, then it means Opening Stock and Purchases appearing in Trial Balance include the value of unsold stock. Since, we prepare our financial statements using matching concept such unsold stock should not form part of cost and therefore is deducted. Therefore, in this case to compute Cost of goods sold (COGS) we will have to use:

$COGS = \text{Opening Stock} + \text{Purchases} - \text{Closing Stock} - \text{Purchase Returns}$

ILLUSTRATION 2

	₹
Opening Inventory	1,00,000
Purchases	6,72,000
Carriage Inwards	30,000
Wages	50,000
Sales	11,00,000
Returns inward	1,00,000
Returns outward	72,000
Closing Inventory	2,00,000

Required

From the above information, prepare a Trading Account of M/s. ABC Traders for the year ended 31st March, 2022 and Pass necessary closing entries in the journal proper of M/s. ABC Traders

SOLUTION

In the books of M/s. ABC Traders

Trading Account for the year ended 31st March, 2022

Particulars		Amount	Particulars		Amount
	₹	₹		₹	₹
To Opening Inventory		1,00,000	By Sales	11,00,000	
To Purchases	6,72,000		Less : Returns Inward	(1,00,000)	10,00,000
Less: Returns outward	(72,000)	6,00,000	By Closing Inventory		2,00,000
To Carriage Inwards		30,000			
To Wages		50,000			
To Gross profit (Balancing Figure)		4,20,000			
		12,00,000			12,00,000

Journal Proper in the Books of M/s. ABC Traders (Closing entries)

Date	Particulars	Amount	Amount
2022		₹	₹
Mar. 31	Returns outward A/c Dr. To Purchases A/c (Being the transfer of returns to purchases account)	72,000	72,000
	Sales A/c Dr. To Returns Inward A/c (Being the transfer of returns to sales account)	1,00,000	1,00,000
	Sales A/c Dr. To Trading A/c (Being the transfer of balance of sales account to trading account)	10,00,000	10,00,000
	Trading A/c Dr. To Opening Inventory A/c To Purchases A/c	7,80,000	1,00,000 6,00,000

To Wages A/c			50,000
To Carriage Inwards A/c			30,000
(Being the transfer of balances of opening Inventory, purchases and wages accounts)			
Closing Inventory A/c	Dr.	2,00,000	
To Trading A/c			2,00,000
(Being the incorporation of value of closing Inventory)			
Trading A/c	Dr.	4,20,000	
To Gross Profit			4,20,000
(Being the amount of gross profit)			
Gross profit	Dr.	4,20,000	
To Profit and Loss A/c			4,20,000
(Being the transfer of gross profit to Profit and Loss Account)			

1.4 PROFIT AND LOSS ACCOUNT

The Profit and Loss Account starts with gross profit on the credit side. If there is gross loss, it will be written on the debit side. After that all those expenses and losses, which have not been entered in the Trading Account, will be written on the debit side of Profit and Loss Account. Incomes and gains, other than sales, will be written on the credit side.

If we understand word 'expenses' properly, there should be no difficulty in distinguishing between items that will be debited to the Profit and Loss Account and those that will be shown as Assets in the balance sheet. Further, it may be noted that the expenses which are personal in nature will not be charged to Profit and Loss A/c. Only those revenue expenses and losses which are related to the current year, are debited to Profit and Loss Account.

It is desirable, according to modern thinking that the Profit and Loss Account should be prepared in such a manner as will enable the reader to form a correct idea about the profit earned or loss incurred by the firm during the period together with the significant factor. Too many details will prevent a person from knowing properly the factors leading to the profit earned. Therefore, items should be according to the various functions, such as administrations, selling and financing. The profit/loss A/c appears as follows:-

Dr.

Profit and Loss Account for the year ended

Cr.

Particulars	₹	Particulars	₹
To Gross Loss b/d		By Gross Profit b/d	
Management expenses		Other Income	
To Salaries (administrative)		By Discount Received	
To Office rent, rates and taxes		By Commission Received	
To Printing and stationery		Non-trading Income	
To Telephone charges		By Bank Interest	
To Postage		By Rent of property let-out	
To Insurance		By Dividend from investment in shares	
To Audit Fees		Abnormal Gains	
To Legal Charges		By Profit on sale of machinery	
To Electricity Charges		By Profit on sale of investment	
Maintenance expenses		By Net Loss (transferred to capital A/c)	
To Repairs & renewals			
To Depreciation on:			
Office Equipment			
Office Furniture			
Office Buildings			
Selling and Distribution expenses			
To Salaries (selling staff)			
To Advertisement			
To Godown rent			
To Carriage Outward			
To Bad Debts			
To Provision for bad debts			
To Selling commission			

<p>Financial expenses</p> <p>To Bank charges</p> <p>To Interest on loans</p> <p>To Discount on bills</p> <p>To Discount allowed to customers</p> <p>Abnormal Losses</p> <p>To Loss on sale of machinery</p> <p>To Loss on sale of investment</p> <p>To Loss by fire</p> <p>To Net Profit (transferred to Capital A/c)</p>	
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

Note:

- (i) Gross loss appears in the debit side of the Profit and Loss Account at the top; while Gross Profit on the credit side.
- (ii) Net loss appears in the credit side of the Profit and Loss Account; while Net profit on debit side as balancing figures.

It will be good idea to either show these expenses in a separate schedule or to indicate the total of these prominently in the Profit and Loss Account. This rule should be followed wherever the number of items is rather large.

Closing Entries

The entries that have to be made in the journal for preparing the Trading and the Profit and Loss Account that is for transferring the various accounts to these two accounts are known as closing entries. We have already seen the entries required for preparing the Trading Account and for transferring the gross profit to the profit and Loss Account. Now to complete the Profit and Loss Account, the under mentioned three entries will be necessary.

- (a) For items to be debited to the Profit and Loss Account this account will be debited and the various accounts concerned will be credited. For example,

Profit and Loss Account	Dr.
To Salaries Account	
To Rent Account	

To Interest Account

To Other Expenses Account

- (b) Items of income or gain such as interest received or miscellaneous income will be credited to Profit and Loss Account.

Discount Received Account Dr.

Bad debts Recovered Account Dr.

To Profit and Loss Account

- (c) At this stage, the Profit and Loss Account will show net profit or net loss. Both have to be transferred to the Capital Account.

In case of net profit, i.e., when the credit side is bigger than the debit side, the entry is:

Profit and Loss Account Dr.

To Capital Account

In the case of net loss, the entry will be

Capital Account Dr.

To Profit and Loss Account

Entries in detail

There may be other income such as interest received, discount received, rent from subletting of premises, miscellaneous incomes such as from sale of junk material etc., It would be desirable to show the totals only under each of the main categories of income. However, interest on fixed deposits, interests or income from investments and other interest should be shown separately. Similarly, items which have to be debited/credited to the proprietor should be segregated from other items. Examples would be interest charged on drawings, interest allowed on capital and charges for services rendered by the firm to the proprietor personally.

We shall now consider a few items individually:

- (i) **Drawings:** Drawings are not expenses for the firm but reduction of capital and therefore should not be debited to the Profit and Loss Account but to Capital account of the proprietor.

Capital A/c Dr.

To Drawings

If the proprietor has enjoyed some benefit personally, like use of the firm's car, a suitable amount should be treated as drawing and to that extent the charge to the

Profit and Loss Account will be reduced, Drawings are debited to the proprietor's capital account.

- (ii) Income Tax:** In case of companies, the income tax payable is treated like other expenses. But in the case of sole proprietorship, income tax is treated as a personal expense. It is debited to the Capital Account and not to the Profit and Loss Account.

Capital A/c	Dr.
To Income Tax A/c	

This is because the amount of the tax will depend on the total income of the partners or proprietor besides the profit of the firm. In case of partnership business, firm's tax liability is to be debited to profit and loss account of the firm but partners' tax liability are not to be borne by the firm. Therefore if the firm pays income tax on behalf of partners, such payment of personal income tax should be treated as drawings.

- (iii) Discount received and allowed:** We have already seen that discount is of two types. Trade discount and Cash discount. Trade discount is allowed when the order for goods is not below a certain figure. It is deducted from the invoice. Only the net amount of invoice is entered in books. There is no further treatment of the trade discount. Cash discount is allowed to a customer if he makes the payment before a certain date. It is allowance made to him for prompt payment and is recorded in the books. Therefore, Trade discount is not debited to P/L account because it is already adjusted in sales, but cash discount is debited to P/L account.

Discount received is a gain and is credited to the Profit and Loss Account while discount allowed is a loss and debited to Profit and Loss Account.

Profit/Loss A/c	Dr.
To Discount Allowed A/c	

Discount Received A/c	Dr.
To Profit/Loss A/c	

- (iv) Rebate:** It is the allowance given to a customer when his purchases during a period, say one year, total upto a certain figure. Suppose a firm allows a rebate of 4% to those customers whose purchases during the year are at least ₹ 5,000. One Customer's purchases are ₹ 4,500, he will not get any rebate. Another customer's purchases total ₹ 5,100, he will get a rebate of ₹ 204. The entry for rebate is made only at the end of the year. The Rebate Account is debited and is later written in the profit and Loss Account on the debit side. Various customers who have earned the rebate are credited.

Initially when Rebate is given

Rebate A/c Dr.
 To Customer A/c

At the year end closing entry

Profit/Loss A/c Dr.
 To Rebate A/c

- (v) **Bad Debts:** When a customer does not pay the amount due from him and all hopes of recovering the amount are lost, it is said to be a bad debt. It is a loss to the firm. Therefore, the bad debts account is debited, which is later on transferred in the Profit and Loss Account on the debit side. Since it is no use showing the amount due still as an asset, the account of the customer concerned is closed by being credited. The entry

Bad Debts Account Dr.
 To Debtor's / Customer (by name) Account

Profit/Loss Account Dr.
 To Bad Debts A/c

In case the Provision for Bad debts has already been prepared then bad debts should be written off first from it. Entry for it will be:

*Provision for Bad Debts A/c Dr.
 To Bad Debts A/c

If later on, the amount is recovered, it should be treated as a gain. It should not be credited to the party paying it. It should be credited to Bad Debts Recovered Account. It will be entered in the Profit and Loss Account on the credit side.

Bad Debts Recovered Account Dr.
 To Profit/Loss Account

For detailed understanding of Provision of Bad Debts please refer Point (6) topic Adjustments of Provision of Bad and Doubtful Debts .

ILLUSTRATION 3

Revenue, Expenses and Gross Profit Balances of M/s ABC Traders for the year ended on 31st March 2022 were as follows:

Gross Profit ₹4,20,000, Salaries ₹1,10,000, Discount (Cr.), ₹18,000, Discount (Dr.) ₹19,000, Bad Debts ₹17,000, Depreciation ₹65,000, Legal Charges ₹25,000, Consultancy Fees ₹32,000, Audit Fees ₹1,000, Electricity Charges ₹17,000, Telephone, Postage and Telegrams ₹12,000, Stationery ₹27,000, Interest paid on Loans ₹70,000.

Required

Prepare Profit and Loss Account of M/s ABC Traders for the year ended on 31st March, 2022. Show necessary closing entries in the Journal Proper of M/s. ABC Traders also.

SOLUTION

In the Books of M/s. ABC Traders

Profit and Loss Account for the year ended 31st March, 2022

Particulars	Amount ₹	Particulars	Amount ₹
To Salaries	1,10,000	By Gross Profit	4,20,000
To Legal Charges	25,000	By Discount received	18,000
To Consultancy Fees	32,000		
To Audit Fees	1,000		
To Electricity Charges	17,000		
To Telephone, Postage & Telegrams	12,000		
To Stationery	27,000		
To Depreciation	65,000		
To Discount Allowed	19,000		
To Bad Debts	17,000		
To Interest	70,000		
To Net Profit (b/f)	43,000		
	4,38,000		4,38,000

Journal Proper in the Books of M/s. ABC Traders (Closing Entries)

Date 2022	Particulars	Dr.	Amount ₹	Amount ₹
March 31	Profit & Loss Account	Dr.	3,95,000	
	To Salaries A/c			1,10,000
	To Legal Charges A/c			25,000
	To Consultancy Fees A/c			32,000
	To Audit Fees A/c			1,000

To Electricity Charges A/c			17,000
To Telephone, Postage & Telegrams A/c			12,000
To Stationery A/c			27,000
To Depreciation A/c			65,000
To Discount Allowed A/c			19,000
To Bad Debts A/c			17,000
To Interest A/c			70,000
(Being the transfer of balances of various expenses accounts)			
Discount Received A/c	Dr.	18,000	
To Profit & Loss A/c			18,000
(Being the transfer of discount received account balance)			
Gross Profit A/c	Dr.	4,20,000	
To Profit & Loss A/c			4,20,000
(Being the transfer of gross profit from Trading Account)			
Profit & Loss A/c	Dr.	43,000	
To Net Profit A/c			43,000
(Being the ascertainment of net profit)			
Net Profit A/c	Dr.	43,000	
To Capital A/c			43,000
(Being the transfer of net profit to Capital A/c)			

Adjustments

The fundamental principle of accounting is that the period to which various items of income and expenditure pertain should be co-extensive with the period of account. As such before final accounts are drawn up, it must be ensured that the accounts which require adjustment on this consideration have been adjusted, both by providing for expense accrued and including income outstanding and excluding expenses the benefit of which extends beyond the year of account as well as the income received in advance. The entries that must be passed for adjusting various accounts of income and expenditure are shown below:

- (1) Expenses accrued and accruing, e.g., Rent, Interest, Local Taxes, Wages etc.

PREPARATIONS OF FINAL ACCOUNTS OF SOLE PROPRIETORS

7.23

Appropriate Expense Account

Dr.

To Expenses Accrued/outstanding Account

For Example, if Rent Paid is ₹ 50,000 for a year and Outstanding Rent is ₹ 14,000. It will be treated as follows:-

Profit/Loss Account

Particulars		Amount ₹	Particulars	Amount ₹
To Rent paid	50,000			
Add: Outstanding Rent	<u>14,000</u>	64,000		

Balance Sheet

Liabilities	Amount ₹	Assets	Amount ₹
Outstanding Rent	14,000		

- (2) Income accrued and accruing, e.g., Interest on Government Loans, Discounts on Bill, Professional fees, Rents and Premiums on leases, etc.

Interest/Fees etc. Accruing Account

Dr.

To Appropriate Income Account

Suppose interest received is ₹ 1,50,000 and accrued interest for the same period is ₹ 45,000. It will be treated as follows:-

Profit/Loss Account

Particulars	Amount ₹	Particulars	Amount ₹
		By interest received	1,50,000
		Add: Accrued Interest	<u>45,000</u>
			1,95,000

Balance Sheet

Liabilities	Amount ₹	Assets	Amount ₹
		Accrued Interest	45,000

Notes:

(1) The term "accrued" signifies that an amount has been incurred as expense or earned as income, the due date of payment of which falls in the next accounting period. If the due date of payment occurs in the current accounting period the term used should be "outstanding" or "accrued and due".

(2) The expression accrued and accruing' signifies items which though not due for payment but pertain to the period of account, a provision for which has been made. Converse is the position so far as items of income are concerned.

- (3) **Carrying forward income received in advance e.g.,** Subscription in the case of a club or fees in case of professional person.

Appropriate Income Account Dr.

To Income Received in Advance Account

For Example Subscription Received in advance is ₹ 70,000 and total subscription received is ₹ 1,75,000.

Profit/Loss Account

Particulars	Amount ₹	Particulars	Amount ₹
		By subscription received 1,75,000	
		Less: Advance (70,000)	1,05,000

Balance Sheet

Liabilities	Amount ₹	Assets	Amount ₹
Advance Subscription	70,000		

- (4) Carrying forward of payments made in advance e.g., Telephone, Rent, Insurance etc.,
Expenses Prepaid Account Dr.

To Appropriate Expenses Account

Suppose out of the total Rent of ₹ 50,000 paid, ₹ 14,000 pertains to the next year.

Profit/Loss Account

Particulars	Amount ₹	Particulars	Amount ₹
To Rent paid 50,000			
Less: Prepaid Rent (14,000)			
	36,000		

Bad Debts Account

Dr.

To Customer's A/c

Bad Debts when written off are debited to the provision in this respect where such a provision exists or directly to the Profit and Loss Account the corresponding credit being given (ultimately) to the trade receivable's account. If, on the other hand, a provision is required to be created, the amount of provision is also debited to the Profit and Loss Account. Where an examination problem requires that certain bad debts should be written off and a provision for doubtful debts made, the amount of bad debts to be written off should be first debited against the existing balance of the provision and the resulting balance in the account afterwards should be raised to the required figure. The method is illustrated below:

ILLUSTRATION 4

On 1st April 2021 provision for Doubtful Debts existed at ₹40,000. Trade receivables on 31.03.2022 were ₹15,00,000; bad debts totaled ₹1,00,000. It is required to write off the bad debts and create a provision equal to 5% of the Trade receivables' balances.

Show how you would compute the amount debited to the Profit and Loss Account.

SOLUTION

PARTICULARS	₹
Opening Provision (Cr.)	40,000
Bad Debts written off (Dr.)	<u>1,00,000</u>
Short Provision	60,000
Provision required (Dr.) (5% of ₹14,00,000)	<u>70,000</u>
Additional amount required for debit to the Profit and Loss Account (Dr.)	1,30,000

The account will appear as follows:

Provision for Doubtful Debts Account

		₹			₹
March 31, 2022	To Bad Debts	1,00,000	April 1, 2021	By Balance b/d	40,000
	To Balance c/d (required)	70,000	March 31, 2022	By Profit and Loss A/c (Balancing Figure)	1,30,000
		1,70,000	April 1, 2022	By Balance b/d	70,000

- (7) **Provision for Discount:** This provision is created in the same manner, discussed above but the amount of provision is required to be calculated after deducting the Provision for Bad Debts from the total trade receivables. This is because Provision for discount is created only on good debtors.

For Example, if Trade Receivables is ₹ 5,20,000 and provision for doubtful debt is ₹ 1,20,000. You are required to create a 10% provision for discount on debtors.

Profit/Loss Account

Particulars	Amount ₹	Particulars	Amount ₹
To Provision for Discount (10% of 4,00,000)	40,000		

Balance Sheet

Liabilities	Amount ₹	Assets	Amount ₹
		Debtors	5,20,000
		Less:- Provision for Doubtful debts (1,20,000)	
		Less:- Provision for Discount	(40,000)
			3,60,000

- (8) **Provision for Depreciation:** It is made either by debiting Depreciation Account and crediting the Provision for depreciation account concerned and afterwards closing of the Depreciation Account by transfer to the Profit and Loss Account or by directly debiting the profit and loss Account and crediting provision for depreciation account and explaining the nature of adjustment by recording a detailed narration in the Journal.

Profit/Loss account Dr.
 To Depreciation/Provision for depreciation.

The amount of depreciation is deducted from the concerned asset and is then shown in the Balance sheet.

For Example if machinery Cost ₹ 15,00,000 and 10% depreciation is to be provided. The treatment is as follow:-

Depreciation a/c Dr. ₹ 1,50,000
 To Provision for Depreciation a/c ₹ 1,50,000

Depreciation is now charged to P&L a/c as:

Profit/Loss account	Dr. ₹1,50,000
To Depreciation	₹ 1,50,000

Profit/Loss Account

Particulars	Amount ₹	Particulars	Amount ₹
To Depreciation	1,50,000		

Balance Sheet

Liabilities	Amount ₹	Assets	Amount ₹
		Machinery	15,00,000
		Less: Provision for Depreciation (1,50,000)	13,50,000

- (9) **Other Provisions:** Whenever it is expected that a loss, the amount of which is not certain will occur, the proper course is to create a provision for meeting the loss if and when it occur. This would be the case, for example, if proprietor expects that compensation will be paid for the late delivery of goods. The entry is to debit the Profit and Loss Account and credit an account suitably named.

All accounts showing provisions may appear in the Balance Sheet on the liability side but it should be noted that:

- (i) The provision for Bad and Doubtful Debts and the Provision for Discount on Trade receivables are deducted from the total book debts; and
 - (ii) The provision for Depreciation is deducted from the cost of the assets concerned.
- (10) **Transfers, involving correction of errors,** are made by debit or credit to the accounts affected, the corresponding effect being recorded either in a Suspense Account of some other account.

Transfers in respect of special charges to the Profit and Loss Account e.g., partner's salaries, interest, etc., and in respect of appropriation of profits are recorded by debit to the Profit and Loss Account and credit to the parties concerned.

While making adjustments, it is important to remember that every entry has a two-fold aspect, debit and credit. For example, if an adjustment is required to be made on

account of prepaid insurance charges, the Insurance Charges Account would be credited, and, to complete the double entry, Prepaid Expenses Account is debited with the same amount. The last mentioned balance would be included on the debit side of the Trial Balance.

Students should, as a matter of course, record on the rough working sheets, adjustments in respect of various items stated in a question and then give their effect in the Trial Balance, before proceeding to draw up the Final Accounts.

1.5 CERTAIN ADJUSTMENTS AND THEIR TREATMENTS

1. **Abnormal loss of Inventory by accident or fire:** Sometimes loss of goods occurs due to fire, theft, etc. If due to accident or fire, a portion of Inventory is damaged, the value of loss is first to be ascertained. Thereafter, Abnormal Loss Account is to be debited and Purchase Account or Trading Account is to be credited.

Abnormal Loss Account is to be transferred to Profit & Loss Account. If amount of loss is recoverable from insurance company, then insurance company is to be debited instead of Profit & Loss Account. Till the money is not received from the insurance company, Insurance Company's Account will be shown in the Assets side of the Balance Sheet. If any part of the loss is recoverable from the insurance company, then the portion not compensated by the insurance company should be debited to Profit & Loss Account. For example, if goods worth ₹ 6,000 are destroyed by fire and the insurance company admits the claim for ₹ 4,500, the Journal entries will be:-

(i)	Loss by Fire Account	Dr.	6,000
	To Purchases/Trading Account		6,000
(ii)	Insurance Company's A/c (Insurance Claim)	Dr.	4,500
	Profit & Loss A/c	Dr.	1,500
	To Loss by Fire A/c		6,000

Profit/Loss Account

Particulars	Amount ₹	Particulars	Amount ₹
To Loss by Fire (The amount not compensated by insurance company)	1,500		

Balance Sheet

Liabilities	Amount ₹	Assets	Amount ₹
		Insurance Claim	4,500

In the Trading Account, Purchases will be reduced by 6,000.

2. **Goods sent on Approval basis:** Sometimes goods are sold to customers on sale or return basis or on approval basis. It should not be treated as actual sale till the time it is not approved by the customer. When goods were sold we have passed the entry for actual sales. Therefore, at the year end, if the goods are still lying with the customers for approval, following entries are to be passed:

For example -

Goods costing ₹10,000 sent to a customer on sale or return basis for ₹12,000. The entry for such unapproved sale shall be-

(i)	Sales A/c	Dr.	12,000	
	To Trade receivables A/c			12,000
(i)	Stock on approval A/c	Dr.	10,000	
	To Trading A/c			10,000

These goods should now be included in the amount of Closing Stock at their cost price.

3. **Goods used other than for sale:** Sometimes goods are used for some other purposes, such as distributed as free samples, used in construction of any assets or used by proprietor for personal use. In such cases the amount used for other purposes is subtracted from Purchases A/c and depending upon the specific use done, the suitable account head is debited.

For example:-

When goods are given away as donation-

Donation A/c	Dr.
To Purchases A/c	

When goods are used by the proprietor for his personal use-

Drawings A/c	Dr.
To Purchases A/c	

When goods are distributed as free samples :-

Free Samples / Advertisement A/c	Dr.
To Purchases A/c	

When goods are used in business for construction of Building or the Machinery :-

Building A/c / Plant & Machinery A/c	Dr.
To Purchases A/c	

When goods are used for maintenance of business premises/ Machinery: -

Repair & Maintenance A/c	Dr.
To Purchases A/c	

4. **Commission based on profit:** Sometimes commission is payable to manager based on net profit; in such a case calculation is done as follows:

(i) Commission on net profit **before** charging such commission =

$$\text{Profit before commission} \times \frac{\text{Rate of commission}}{100}$$

(ii) Commission on net profit **after** charging such commission =

$$\text{Profit before commission} \times \frac{\text{Rate of commission}}{100 + \text{Rate of commission}}$$

Commission is recorded by following journal entry

Commission A/c	Dr.
To Commission Payable A/c	

(Being commission payable to Mr @% on net profit after charging such commission, net profit before charging commission being ₹.....)

Commission will be debited in the Profit & Loss Account and Commission Payable Account will be shown in the Balance Sheet on liability side.

Profit/Loss Account	Dr.
To Commission A/c	

For example if Net profit before Commission is ₹ 1,00,000 and Manager is entitled to a Commission of 10% of Net Profit before charging such commission. The amount of Commission is = ₹ 10,000 (10% of ₹ 1,00,000). It will be shown as follow:-

Profit/Loss Account

Particulars	Amount ₹	Particulars	Amount ₹
To Commission	10,000		
To Net Profit transferred to Capital A/c	90,000		

Balance Sheet

Liabilities	Amount ₹	Assets	Amount ₹
Commission Payable	10,000		

Now, let us assume that 10% commission is payable on Net Profit after charging such commission. The amount of commission now is = 9,090.90 or 9091 (approx) (₹ 1,00,000 x 10/110)

ILLUSTRATION 5

The following is the Trial Balance of C. Wanchoo on 31st March, 2022.

Trial Balance on 31st March , 2022

Particulars	₹	₹
Capital Account		10,00,000
Inventories as on 1 st April, 2021	2,00,000	
Cash in hand	1,44,000

	22,80,000		22,80,000

1.6 BALANCE SHEET

The balance sheet may be defined as "a statement which sets out the assets and liabilities of a firm or an institution as at a certain date." Since even a single transaction will make a difference to some of the assets or liabilities, the balance sheet is true only at a particular point of time. That is the significance of the word "as at."

The assets are shown on the right hand side and liabilities and capital on the left hand side.

CHARACTERISTICS

The balance sheet has certain characteristics, which should be noted. These are the following:

- (i) It is prepared at a particular date, rather the close of a day and not for a period. It is true only on that date and not later. Suppose, in the example given above, a part of the goods were sold on 1st April, 2021. This will mean that the value of the Inventory will be reduced, the cash in hand will increase and the capital account will be reduced or increased depending upon loss or profit on sale.
- (ii) The balance sheet is prepared only after the preparation of the Profit and Loss Account. This is the reason why the Profit and Loss Account (including the Trading Account) and the Balance Sheet are together called Final Accounts (of course, the Balance Sheet is not an account, the two sides are not the debit and the credit sides.) Without being accompanied by the Profit and Loss Account, the Balance Sheet will not be able to throw adequate light on the financial position of the firm. For that purpose an appreciation of the profits of the firm is necessary.
- (iii) Since capital always equals the difference between assets and liabilities and since the capital account will independently arrive at this figure, the two sides of the Balance Sheet must have the same totals. If it is not so, there is certainly an error somewhere.

In the illustration no. 5 worked out above it will be seen that the under mentioned accounts have not been closed even after preparation of the Profit and Loss Account and the transfer of the net profit to the capital account.

	₹	
Cash in Hand	1,44,000	Debit balance
Capital Accounts (₹ 10,00,000+ ₹ 6,30,000)	16,30,000	Credit balance
Machinery Account	7,36,000	Debit balance
Trade receivables	8,50,000	Debit balance
Trade payables	3,70,000	Credit balance
Inventories	2,70,000	Debit balance

Looking at these accounts, one would know that various assets: Cash balance in hand, cash at bank, machinery, furniture etc. that the firm possesses and the amounts that are owing as liability to trade payables and to the proprietor as capital. The capital, of course, will be the difference between the total of assets and of liabilities. The assets, liabilities and capital are usually presented in a statement called the Balance Sheet. This is given below for the accounts mentioned above.

C. WANCHOO

Balance Sheet as at March 31, 2022

Liabilities	Amount	Assets	Amount
	₹		₹
Trade payables	3,70,000	Cash in Hand	1,44,000
Capital	16,30,000	Trade receivables	8,50,000
		Inventories	2,70,000
		Machinery	7,36,000
	20,00,000		20,00,000

ARRANGEMENTS OF ASSETS AND LIABILITIES

(1) **Assets:** Assets may be grouped in one of the following two ways:

- (i) **Liquidity:** Under this approach, the asset, which can be converted into cash first, is presented first. Those assets, which are most difficult in this respect, are presented at the bottom. As per Liquidity the balance sheet can be prepared as follow:-

Balance Sheet as at...

Liabilities	Amount	Assets	Amount
	₹		₹
Bills Payable		Cash in Hand	
Trade Creditors		Cash at Bank	
Loans		Government Securities	
Outstanding Expenses		Other Investments	
Reserves & Surplus		Bills Receivable	
Capital		Sundry Debtors	
		Stock	
		Furniture & Fixtures	
		Plant & Machinery	
		Land and Building	

- (ii) **Permanence:** Assets, which are to be used, for long term in the business and are not meant to be sold are presented first. Assets, which are most liquid, such as cash in hand, are presented at the bottom.

Balance Sheet as at...

Liabilities	Amount	Assets	Amount
	₹		₹
Capital		Land and Building	
Reserves & Surplus		Plant & Machinery	
Outstanding Expenses		Furniture & Fixtures	
Loans		Stock	
Trade Creditors		Sundry Debtors	
Bills Payable		Bills Receivable	
		Other Investments	
		Government Securities	
		Cash at Bank	
		Cash in Hand	

Note:- Some of the assets may be capable of being sold easily like investment in government securities or shares of some companies. They should be treated as liquid or permanent according to the intention of the firm.

- (2) **Liabilities:** Liabilities may also be shown according to the urgency with which payment has to be made. One way is to first show the capital, then long-term liabilities and last of all short term liabilities like amounts due to suppliers of goods or bills payable. The other way is to start with short-term liabilities and then show long term liabilities and last of all capital.

CLASSIFICATION OF ASSETS AND LIABILITIES

Assets are basically of following types:

Current Assets: - these assets are meant to be converted into cash as quickly as possible. Generally, within one year. For example:- Cash in hand, Cash at Bank, Trade receivables, Inventories.

Long Term Assets: - Those that are meant to be used by the firm over a long period and not sold the former type of assets is also called fixed assets. For example:- Machinery, Building, Long term Investment.

Intangible Assets: - the assets which have no physical existence and cannot be seen or touched are called as Intangible Assets. For example :- Patents, Copyrights etc.

It is desirable that in the balance sheet the two types of assets should be shown separately and prominently. This would give meaningful and logical information.

Liabilities to outsider will be of two types:

Current Liabilities: - this liability must be settled in one year or less. It is also called as short-term liability. For example: - Creditors, Bills Payable etc.

Long Term Liability: - those liabilities which exists for more than one year are Long term liabilities. For example long term loans from banks. Of course, it will include undistributed profits also.

Sole proprietors generally present Balance Sheet in a horizontal form with "Capital and Liabilities" on the left hand side and 'Assets' on the right-hand side. In the Balance Sheet the various items should be grouped suitably as indicated below:

Balance Sheet as at.....

Liabilities	Amount	Assets	Amount
	₹		₹
Capital A/c: Balance <i>Add : Net Profit/Less: Net Loss</i> <i>Less : Drawings</i>		Tangible Fixed Assets : Land and Building Plant and Machinery Furniture and Fixture Vehicles	
Long Term Loans : Term Loans Other Loans		Intangibles : Goodwill Patent Rights Designs and Brand Names	
Short Term Loans : Cash Credit Overdrafts Other Loans		Investments : Long term investments	
Current Liabilities : Trade payables Outstanding Expenses Advances Taken		Current Assets : Inventory in Trade Trade receivables Short term investments Prepayments Advances Bank Balances Cash In Hand	
Provision : Provision for Bad debts Provision for Retirement Benefits Provision for Taxation			

In course, there is no hard and fast rule regarding presentation of assets, liabilities and equities in the Balance sheet. However, the model presentation shown above has been designed considering the nature of Balance Sheet elements and categorizing them appropriately.

Proper presentation of Balance Sheet items improves understandability of the information desired to be communicated to the users of account.

Less: Drawings	(60,000)	7,40,000	Trade receivables	4,20,000
14% Term Loan (loan taken at year end)		4,00,000	Advances to Suppliers	1,00,000
Loan from M/s D & Co.		4,60,000	Cash in Hand	20,000
Trade payables		40,000		
		16,40,000		16,40,000

ILLUSTRATION 7

The balance sheet of Thapar on 1st April, 2021 was as follows:

Liabilities	Amount ₹	Assets	Amount ₹
Trade payables	15,00,000	Plant & Machinery	30,00,000
Expenses Payable	1,50,000	Furniture & Fixture	3,00,000
Capital	50,00,000	Trade receivables	14,00,000
		Cash at Bank	6,50,000
		Inventories	13,00,000
	66,50,000		66,50,000

During 2021-22, his Profit and Loss Account revealed a net profit of ₹ 18,30,000. This was after allowing for the following :

- Rent received from property let out ₹ 3,00,000.
- Depreciation on Plant and Machinery @ 10% and on Furniture and Fixtures @ 5%.
- A provision for Doubtful Debts @ 5% of the trade receivables as at 31st March, 2022.

But while preparing the Profit and Loss Account he had forgotten to provide for (1) outstanding expenses totaling ₹ 1,80,000 and (2) prepaid insurance to the extent of ₹ 20,000.

His current assets and liabilities on 31st March, 2022 were: Inventories ₹ 14,50,000; Trade receivables ₹ 20,00,000; Cash at Bank ₹ 10,35,000 and Trade payables ₹ 11,40,000.

During the year he withdrew ₹ 6,00,000 for domestic use.

Required

Draw up his Balance Sheet at the end of the year.

SOLUTION

Profit and Loss Account (Revised)

Particulars	₹	Particulars	₹
To Outstanding expenses	1,80,000	By Balance b/d	18,30,000
To Net profit	16,70,000	By Prepaid insurance	20,000
	18,50,000		18,50,000

Balance Sheet of Thapar as at 31st March, 2022

Liabilities		₹	Assets	₹	₹
Capital	50,00,000		Cash at Bank		10,35,000
Add: Net Profit	16,70,000		Trade receivables	20,00,000	
	66,70,000		Less: Provision for doubtful debts	(1,00,000)	19,00,000
Less : Drawings	(6,00,000)	60,70,000	Plant and Machinery	30,00,000	
Outstanding expenses		1,80,000	Less: Depreciation	(3,00,000)	27,00,000
Trade payables		11,40,000	Furniture & Fixtures	3,00,000	
			Less: Depreciation	(15,000)	2,85,000
			Inventories		14,50,000
			Prepaid insurance		20,000
		73,90,000			73,90,000

1.7 SEQUENCE OF ACCOUNTING PROCEDURE OR THE ACCOUNTING CYCLE

What has been done so far shows that the accounting process in the following order :

- (i) recording the transactions in the journal or journalising;
- (ii) preparing ledger accounts on the basis of the journal or posting into the ledger;
- (iii) taking out the trial balance to check arithmetical accuracy;
- (iv) preparing the trading and profit and loss account or the income statement for the period concerned; and
- (v) preparing the balance sheet to show the financial position at the end of the period.

1.8 OPENING ENTRY

We have seen that on commencing a new business one debits the cash account and credits the capital account with the amount introduced. A firm closes the books of account at the end of each year and starts new books in the beginning of each year. The first entry in the journal is to record the closing balances of various assets and liabilities at the end of the previous year as the opening balances in the beginning of the new year. The balance sheet prepared at the end of the year records these balances and is the basis for this first entry. It is called the opening entry.

The assets shown in the balance sheet are debited and the liabilities and the capital account credited.

ILLUSTRATION 8

Balance Sheet as at 31st March, 2022

Liabilities	₹	Assets	₹
Mahendra & Sons	5,60,000	Cash in hand	43,000
Capital	20,00,000	Cash at Bank	2,67,500
		Trade receivables	7,49,500
		Closing Inventory	9,00,000
		Machinery and Equipment	6,00,000
	25,60,000		25,60,000

From the above given balance sheet prepare the relevant opening entry.

SOLUTION

The Opening Entry :01-04-2022

		Dr.	Cr.
		₹	₹
Cash A/c	Dr.	43,000	
Bank A/c	Dr.	2,67,500	
Trade receivables	Dr.	7,49,500	
Inventory A/c	Dr.	9,00,000	
Machinery and Equipment A/c	Dr.	6,00,000	
To Mahendra & Sons A/c			5,60,000

To Capital A/c		20,00,000
(Being the balances brought forward)	25,60,000	25,60,000

Posting the Opening Entry

All the assets show debit balance. Such accounts are opened and the relevant amounts written on the debit side as "To Balance b/d". Following is the cash account arising from the entry given above.

Cash Account

Date 2022	Particulars	Amount ₹	Date	Particulars	Amount ₹
April 1	To Balance b/d	43,000			

Similarly account should be opened for all other assets and relevant amount should be posted on the Dr. side.

The accounts of liabilities show credit balances. An account for each liability is opened and the relevant account is written on the credit side as "By Balance b/d". This is shown below by opening the accounts of Mahendra & Sons mentioned in the entry given above.

Mahendra & Sons

Date	Particulars	Amount ₹	Date 2022	Particulars	Amount ₹
			April 1	To Balance b/d	5,60,000

By posting the opening entry completely all the accounts of assets and liabilities in the beginning are opened. We illustrate below a complete cycle of journalising, posting and trial balance.

Students should work through the following illustration given by way of practice on the method of making adjustments in some of the accounts contained in a Trial Balance and afterwards preparing the final Account.

ILLUSTRATION 9

Shri Mittal gives you the following Trial Balance and some other information:

Trial Balances as on 31st March, 2022

Particulars	Dr. ₹	Cr. ₹
Capital		8,70,000
Purchases and Sales	6,05,000	12,10,000
Opening Inventory	72,000	
Trade receivables and Trade payables	90,000	1,70,000
14% Bank Loan (loan taken at year end)		2,00,000
Overdrafts (overdraft taken at year end)		1,12,000
Salaries	2,70,000	
Advertisements	1,10,000	
Other expenses	60,000	
Returns	40,000	30,000
Furniture	4,50,000	
Building	8,90,000	
Cash in Hand	2,000	
Input CGST	9,000	
Input SGST	9,000	
Output IGST		15,000
	26,07,000	26,07,000

Closing Inventory on 31st March, 2022 was valued at ₹ 1,00,000.

Required

Prepare final accounts of Shri Mittal for the year ended 31st March, 2022.

SOLUTION

In the books of Shri Mittal

Trading Account for the year ended 31st March, 2022

Particulars		Amount	Particulars		Amount
		₹			₹
To Opening inventory		72,000	By Sales	12,10,000	
To Purchases	6,05,000		Less: Returns	(40,000)	11,70,000
Less: Returns	(30,000)	5,75,000	By Closing inventory		1,00,000
To Gross Profit		6,23,000			
		12,70,000			12,70,000

Profit and Loss Account for the year ended 31st March, 2022

Particulars	Amount (₹)	Particulars	Amount (₹)
To Salaries	2,70,000	By Gross profit	6,23,000
To Advertisement	1,10,000		
To Other expenses	60,000		
To Net profit	1,83,000		
	6,23,000		6,23,000

Balance Sheet as at 31st March, 2022

Liabilities		Amount (₹)	Assets		Amount (₹)
Capital	8,70,000		Building		8,90,000
Add: Net profit	1,83,000	10,53,000	Furniture		4,50,000
14% Bank Loan		2,00,000	Trade receivables		90,000
Trade payables		1,70,000	Closing inventory		1,00,000
Overdrafts		1,12,000	Cash in hand		2,000
		15,35,000	Input SGST (W.N.)		3,000
		15,35,000			15,35,000

Note: As loan and overdraft taken at year end so no interest shown.

Working Note:

Output IGST liability is paid by utilizing Input CGST of ₹ 9,000 and Input SGST of ₹ 6,000. Thereafter, closing balance of Input SGST of ₹ 3,000 is reported in Balance Sheet.

ILLUSTRATION 10

Mr. Mohan gives you the following trial balance and some other information:

Trial Balance as on 31st March, 2022

Particulars	₹	₹
Capital		6,50,000
Sales		9,70,000
Purchases	4,30,000	
Opening Inventory	1,10,000	
Freights Inward	40,000	
Salaries	2,10,000	
Other Administration Expenses	1,50,000	
Furniture	3,50,000	
Trade receivables and Trade payables	2,10,000	1,90,000
Returns	20,000	12,000
Discounts	19,000	9,000
Bad Debts	5,000	
Investments in Government Securities	1,00,000	
Cash in Hand and Cash at Bank	1,89,000	
Input CGST	10,000	
Input SGST	10,000	
Output CGST		8,000
Output SGST		8,000
Output IGST		6,000
	18,53,000	18,53,000

Other Information:

- (i) Closing Inventory was ₹ 1,80,000;
(ii) Depreciate Furniture @ 10% p.a.

Required

Prepare Trading and Profit and Loss Account for the year ended on 31.3.2022 and Balance Sheet of Mr. Mohan as on that date.

SOLUTION

**In the books of Mr. Mohan
Trading Account for the year ended 31st March, 2022**

Particulars		Amount	Particulars		Amount
		₹			₹
To Opening Inventory		1,10,000	By Sales	9,70,000	
To Purchases	4,30,000		Less: Returns	(20,000)	9,50,000
Less: Returns	(12,000)	4,18,000	By Closing Inventory		1,80,000
To Freight Inwards		40,000			
To Gross profit		5,62,000			
		11,30,000			11,30,000

Profit and Loss Account for the year ended 31st March, 2022

Particulars		₹	Particulars		₹
To Depreciation		35,000	By Gross profit		5,62,000
To Salaries		2,10,000	By Discount received		9,000
To Administration expenses		1,50,000			
To Discount allowed		19,000			
To Bad debts		5,000			
To Net profit		1,52,000			
		5,71,000			5,71,000

Balance Sheet as at 31st March, 2022

Liabilities		Amount	Assets		Amount
		₹			₹
Capital	6,50,000		Furniture	3,50,000	
Add: Net profit	1,52,000	8,02,000	Less: Depreciation	(35,000)	3,15,000
Trade payables		1,90,000	Closing Inventory		1,80,000
Output IGST		2,000	Trade receivables		2,10,000

			Investment in Govt Securities		1,00,000
			Cash in Hand and Cash at Bank		1,89,000
		9,94,000			9,94,000

Working Note:**Summary of Output and Input GST liability (as per Trial Balance)**

	OUTPUT GST (₹)	INPUT GST (₹)
IGST	6,000	
CGST	8,000	10,000
SGST	8,000	10,000

Output liability (Tax head)	Tax Payable	Paid through ITC			Tax paid in cash
		IGST	CGST	SGST	
IGST	6,000		2,000	2,000	2,000
CGST	8,000		8,000		
SGST	8,000			8,000	

In the above solution, it is assumed that balance IGST liability of ₹ 2,000 (after utilising CGST and SGST) is not paid off in cash.

Alternatively, students may assume that the balance liability of ₹ 2,000 is paid off in cash. Accordingly, Output IGST liability of ₹ 2,000 shall not appear under liability side of the balance sheet and amount of cash at bank is reported as ₹ 1,87,000

The following is the schedule of balances as on 31.3.22 extracted from the books of Shri Gavaskar, who carries on business under the same name and style of Messrs Gavaskar Viswanath & Co., at Mumbai:

Particulars	Dr.	Cr.
	₹	₹
<i>Cash in hand</i>	14,000	
<i>Cash at bank</i>	26,000	
<i>Sundry Debtors</i>	8,60,000	
<i>Stock on 1.4.2021</i>	6,20,000	
<i>Furniture & fixtures</i>	2,14,000	

Office equipment	1,60,000	
Buildings	6,00,000	
Motor Car	2,00,000	
Sundry Creditors		4,30,000
Loan from Viswanath		3,00,000
Provision for bad debts		30,000
Purchases	14,00,000	
Purchase Returns		26,000
Sales		23,00,000
Sales Returns	42,000	
Salaries	1,10,000	
Rent for Godown	55,000	
Interest on loan from Viswanath	27,000	
Rates & Taxes	21,000	
Discount allowed to Debtors	24,000	
Discount received from Creditors		16,000
Freight on purchases	12,000	
Carriage Outwards	20,000	
Drawings	1,20,000	
Printing and Stationery	18,000	
Electricity Charges	22,000	
Insurance Premium	55,000	
General office expenses	30,000	
Bad Debts	20,000	
Bank charges	16,000	
Motor car expenses	36,000	
Capital A/c		16,20,000
TOTAL	47,22,000	47,22,000

Prepare Trading and Profit and Loss Account for the year ended 31st March, 2022 and the Balance Sheet as at that date after making provision for the following:

1. Depreciate: (a) Building used for business by 5 percent; (b) Furniture and fixtures by 10 percent; One steel table purchased during the year for ₹ 14,000 was sold for same price but the sale proceeds were wrongly credited to Sales Account; (c) Office equipment by 15 percent; Purchase of a typewriter during the year for ₹ 40,000 has been wrongly debited to purchase; and (d) Motor car by 20%.
2. Value of stock at the close of the year was ₹ 4,40,000.
3. Two month's rent for godown is outstanding.
4. Interest on loan from Viswanath is payable at 12 percent per annum, this loan was taken on 1.5.2021.
5. Provision for bad debts is to be maintained at 5 percent of Sundry Debtors.
6. Insurance premium includes ₹ 40,000 paid towards proprietor's life insurance policy and the balance of the insurance charges cover the period from 1.4.2021 to 30.6.2022.

1.9 PROVISIONS AND RESERVES

Provision means "any amount written off or retained by way of providing for depreciation, renewal or diminution in the value of assets or retained by way of providing for any known liability of which the amount cannot be determined with substantial accuracy". A provision is a liability which can be measured only by using a substantial degree of estimation.

Thus, a provision may be either in respect of loss in the value of an asset provided or written off on the basis of an estimate or the one in respect of a liability for expenses incurred in respect of a claim which is disputed i.e. when it is a contingent liability. On the occurrence of

a diminution in asset values due to some of them having become irrecoverable or Inventory items are lost as a result of some natural calamity, amounts contributed or transferred from profit to make good the diminution also are described as provision.

The following are instances of amount retained in the business out of earning for different purposes that are described as provisions.

- (1) Amount provided for meeting claims which are admissible in principle, but the amount whereof has not been ascertained.
- (2) An appropriation made for payment of taxes still to be assessed.
- (3) Amount set aside for writing off bad debts or payment of discounts.

The portion of earnings, receipts or other surplus of an enterprise (whether capital or revenue) appropriated by the management for a general or a specific purpose other than a provision for depreciation or diminution in the value of assets or for a known liability is known as reserves. The reserves are primarily of two types: capital reserves and revenue reserves. Also provisions in excess of the amount considered necessary for the purposes these were originally made, are to be considered as reserves. ***It is thus evident that provisions are a charge against profits, while reserve is an appropriation of profits.*** Also provisions that ultimately prove to be in excess of amounts required or have been made too liberally are reserves. Such a distinction is essential for disclosing truly in the Balance Sheet the amount by which the equity of shareholders has increased with the accumulation of undistributed profits.

Reserve Fund: It signifies the amount standing to the credit of the reserve that is invested outside the business in securities which are readily realisable e.g., when the amounts set apart for replacement of an asset are invested periodically, in government securities or shares. The account to which these amounts are annually credited is described as the Reserve Fund.

ILLUSTRATION 14

Crimpson traders profit and loss account for the year ended 31st March, 2022 includes the following information:

	₹
(i) Depreciation	57,500
(ii) Bad debts written off	21,000
(iii) Increase in provision for doubtful debts	18,000
(iv) Retained profit for the year	20,000
(v) Liability for tax	4,000

Required

State which one of the items (i) to (vi) above are – (a) transfer to provisions; (b) transfer to reserves; and (c) neither related to provisions nor reserves.

SOLUTION

- (a) Transfer to provisions - (i), (iii) (v)
- (b) Transfer to reserves - (iv)
- (c) Neither related to provisions nor reserves - (ii).

A summary of all adjustments are as follows:

Adjustment	If Given in Trial Balance	If Not Given in Trial Balance
1. Closing stock	Balance Sheet – Asset Side	(a) Trading A/c – Credit Side
		(b) Balance Sheet – Asset Side
2. Outstanding Expenses	Balance Sheet – Liability Side	(a) Trading/Profit & Loss A/c Debit Side. Add to the concerned expenses.
		(b) Balance Sheet – Liability Side
3. Prepaid Expenses	Balance Sheet – Asset Side	(a) Trading/Profit & Loss A/c Debit Side. Deduct from the concerned expense.
		(b) Balance Sheet - Asset
4. Income Outstanding	Balance Sheet – Asset Side	(a) Profit & Loss A/c – Credit Side. Add to the concerned income.
		(b) Balance Sheet – Asset Side.
5. Incomes Received in Advance	Balance Sheet – Liability Side	(a) Profit & Loss A/c – Credit Side. Deduct from concerned income.
		(b) Balance Sheet – Liability Side
6. Bad Debts	Profit & Loss A/c – Debit Side	(a) Profit & Loss A/c – Debit Side.
		(b) Balance Sheet – Asset Side. Deduct from debtors .
7. Provision for Bad or Doubtful debts	Profit & Loss A/c – Debit Side	(a) Profit & Loss A/c – Debit Side.
		(b) Balance Sheet – Asset Side. Deduct from Debtors after additional bad debts, if any.
		(a) Profit & Loss A/c – Debit Side.

8. Provision for Discount on Debtors	Balance Sheet – Asset Side Deduct from Debtors.	(b) Balance Sheet – Asset Side. Deduct from debtors after providing for provision for bad debts
9. Depreciation	Profit & Loss A/c – Debit Side	(a) Profit & Loss A/c – Debit Side.
		(b) Balance Sheet – Asset Side. Deduct from Respective Asset.
10. Interest on Capital	Profit & Loss A/c – Debit Side	(a) Profit & Loss A/c – Debit Side.
		(b) Balance Sheet – Liability Side. Add to Capital.
11. Interest Drawings	Profit & Loss A/c – Credit Side	(a) Profit & Loss A/c – Credit Side.
		(b) Balance Sheet – Liability Side. Deduct from Capital.
12. Loss by Fire	Profit & Loss A/c – Debit Side	(a) Trading A/c – Credit Side (with full amount of loss)
		(b) Profit & Loss A/c – Debit Side (Actual loss, if any) [adjusted with insurance claim if any]
		(c) Balance Sheet – Asset Side (with insurance claim admitted by Insurance Co.)
13. Goods withdrawn for personal use	Trading A/c - Credit Side	(a) Trading A/c – Credit Side or Deduct from Purchases.
		(b) Balance Sheet – Liability Side (Deduct from Capital as Drawings)
14. Goods Distributed as free Samples	Profit & Loss A/c – Debit Side	(a) Trading A/c – Credit Side or Deduct from Purchases
		(b) Profit & Loss A/c – Debit Side
15. Sale of Goods on Approval Basis, approval not yet received	Usually it is not given in Trial Balance	(a) Trading A/c – Credit Side. Deduct from Sales the selling price of goods sold and add to stock at cost price.
		(b) Balance Sheet – Asset Side. Deduct from Debtors the selling price of such sales and show the cost price of such sales along with closing stock.

1.10 LIMITATIONS OF FINANCIAL STATEMENTS

Financial statements suffer from a number of limitations. These must, therefore, be studied with care, in order that correct inferences may be drawn. The limitations are less serious if the objective is only to appraise the performance of a single company over a period of year. Where, however, a comparison of the working of different companies for the same period is to be made. It can be misleading unless the companies concerned have followed the same system and basis of accounting. On the account, a comparison of the performance of different industries on the basis of financial statements, should be undertaken only if it is not practicable to make such a comparison on any other basis.

The principal limitations affecting financial statements are the following:

- (a) **Historical Cost:** Accounting records and, on that account, the financial statements are prepared only on the basis of the money value prevailing at the time the transaction were entered into. Thus, the effect of subsequent changes in the value of money is not taken into account. At times this has the effect of making the statements of account quite misleading. Take the obvious example of a house built in 1980, say at the cost of ₹15,000, in 2022 the benefit receivable from its occupation will be as much as that of a house created in 2022, say at a cost of ₹30,00,000. If the house were included in the financial statements at its original cost, as normally it would not convey a true picture except to a knowledgeable person.

The limitations can be serious in the case of other fixed assets that have been working over a long period over which prices have changed radically. It is, however, not easy to get over this difficulty, since revaluation of fixed assets, apart from being costly is not practicable when the value of money is continuously falling. On this account, historical cost continues to be the accepted basis for the preparation of financial statements. Though it may not be possible to do much to remove the limitation mentioned above, one must always remember to read the balance sheet and the profit and loss account in the light of what they cannot reveal as well as what they do.

- (b) **Intangible strengths and weaknesses:** A company may have a number of strengths and weaknesses which cannot be shown in the balance sheet e.g., the loyalty and calibre of its staff. These must be kept in mind while judging the financial position of the company.
- (c) **Perpetual continuity and periodical account:** Financial statements ordinarily are drawn up at the end of each year but the accounting record is maintained on the assumption that the business undertaking shall continue to exist forever on the basis of going concern assumption. In consequence, much of the expenditure other than revenue expenditure has to be distributed arbitrarily over a number of years during

which benefit of the expenditure is expected to arise. As a result, financial statements of account are not absolutely correct.

- (d) **Different accounting policies:** It is permissible for a company within certain limits to adopt different policies for the preparation of accounts, valuation of various assets and distribution of expenditure over different periods of account. For example, a company may decide to provide annually for payment of pensions and gratuities to staff and thus build up a 'fund' out of which payments will be made ultimately whereas another company may deal with these only when actual payments are made. Similarly, a company may decide whether or not to include intangible assets amongst its assets or manner in which the amounts thereof should be written off.
- (e) **Management policies:** Management can have different accounting policies for welfare of the staff and public at large.

SUMMARY

- ◆ Non-manufacturing entities are the trading entities, which are engaged in the purchase and sale of goods at profit without changing the form of the goods.
- ◆ For accounting, profit is measured at two levels:
 - (a) Gross Profit
 - (b) Net Profit
- ◆ The principal function of final statements of account (Trading Account, Profit and Loss Account and the Balance Sheet) is to exhibit truly and fairly the profitability and the financial position of the business to which they relate. In order that these may be properly drawn up, it is essential that a proper record of transactions entered into by the business during a particular accounting period should be maintained.
- ◆ At the end of the year, it is necessary to ascertain the net profit or the net loss. For this purpose, it is first necessary to know the gross profit or gross loss. Gross Profit is the difference between the selling price and the cost of the goods sold. For a trading firm, the cost of goods sold can be ascertained by adjusting the cost of goods still on hand at the end of the year against the purchases.

TEST YOUR KNOWLEDGE

True and False

1. *The income statement shows either net profit or net loss for a particular period.*
2. *Gains from the sale or exchange of assets are not considered as the revenue of the business.*
3. *The salary paid in advance is not an expense because it neither reduces assets or nor increase liabilities.*
4. *A loss is an expenditure which does not bring any benefit to the concern.*
5. *All liabilities which become due for payment within the year are classified as long-term liabilities.*
6. *The term current asset is used to designate cash and other assets or resources which are reasonably expected to be realized or sold or consumed within one year.*
7. *An asset gives rise to expenditure when it is acquired and to an expense when it is consumed.*
8. *If the balance of an account on the debit side of the trial balance where the benefit has already expired then it is treated as an expense.*
9. *Sales less cost of goods sold = gross profit.*
10. *If the debit side of the trading account exceeds its credit side then the balance is termed as gross profit.*
11. *The provision for bad debts is debited to Sundry Debtors Account.*
12. *The provision for discount on creditors is often not provided in keeping with the principle of conservatism.*
13. *The debts written off as bad, if recovered subsequently are credited to Debtors Account.*
14. *The adjustment entry in respect of income received in advance is debit Income received in advance account and credit income account.*
15. *Premium paid on the life policy of a proprietor is debited to profit and loss account.*
16. *Depreciation account appear in the trial balance is taken only to profit and loss account.*
17. *Personal purchases included in the purchases day book are added to the sales account in the Trading account.*
18. *Medicines given to the office staff by a manufacturer of medicines will be debited to salaries account.*

19. Goods worth ₹ 600 taken by the proprietor for personal use should be credited to Capital Account.
20. If Closing Stock appears in the Trial Balance, the Closing inventory is then not entered in Trading Account. It is only shown in the Balance Sheet.

Multiple Choice Questions

- (1) A debit to an account may
- (a) increase expense
 - (b) decrease an asset.
 - (c) increase a liability.
- (2) Prepayment of insurance premium will appear in the Balance Sheet and in the Insurance Account respectively as:
- (a) a liability and a debit balance.
 - (b) an asset and a debit balance.
 - (c) an asset and a credit balance.
- (3) Gross profit is the difference between:
- (a) sales and purchases
 - (b) sales and cost of sales.
 - (c) sales and total expenses.
- (4) Payment made to a creditor subject to cash discount will :
- (a) reduce a liability, reduce an asset and add to expenses.
 - (b) reduce a liability, add to an asset, and add to revenue.
 - (c) reduce an asset, reduce a liability, and add to revenue.
- (5) A customer returns goods already charged to him. We should:
- (a) debit his account.
 - (b) credit his account.
 - (c) make no entry on his account.
- (6) Capital is the difference between
- (a) Income and expenses
 - (b) Sales and Cost of goods sold

- (c) *Assets and liabilities*
- (7) *The capital of a sole trader would change as a result of:*
- (a) *A creditor being paid his account by cheque.*
 - (b) *Raw materials being purchased on credit.*
 - (c) *Wages being paid in cash.*
- (8) *A decrease in the provision for doubtful debts would result in:*
- (a) *An increase in liabilities.*
 - (b) *A decrease in working capital.*
 - (c) *An increase in net profit.*
- (9) *A Company wishes to earn a 20% profit margin on selling price. Which of the following is the profit mark up on cost, which will achieve the required profit margin?*
- (a) *33%*
 - (b) *25%*
 - (c) *20%*
- (10) *If sales is ₹ 2,000 and the rate of gross profit on cost of goods sold is 25%, then the cost of goods sold will be*
- (a) *₹ 2,000.*
 - (b) *₹ 1,500.*
 - (c) *₹ 1,600.*
- (11) *Sales for the year ended 31st March, 2022 amounted to ₹ 10,00,000. Sales included goods sold to Mr. A for ₹ 50,000 at a profit of 20% on cost. Such goods are still lying in the godown at the buyer's risk. Therefore, such goods should be treated as part of*
- (a) *Sales.*
 - (b) *Closing Inventory.*
 - (c) *Goods in transit.*
- (12) *If sales revenues are ₹ 4,00,000; cost of goods sold is ₹ 3,10,000 and expenses are ₹ 60,000, the gross profit is*
- (a) *₹ 30,000.*
 - (b) *₹ 90,000.*
 - (c) *₹ 3,40,000.*

Theoretical questions

- Write short notes on:
 - Balance sheet.
 - Trading account
 - Closing entries
- Distinguish between Provision and reserve fund.

Practical questions

- From the following particulars extracted from the books of Ganguli, prepare trading and profit and loss account and balance sheet as at 31st March, 2022 after making the necessary adjustments:

	₹		₹
Ganguli's capital account (Cr.) as on 1.4.2021	5,40,500	Interest received	7,250
Stock on 1.4.2021	2,34,000	Cash with Traders Bank Ltd.	40,000
Sales	14,48,000	Discounts received	14,950
Sales return	43,000	Investments (at 5%) as on 1.4.2021	25,000
Purchases	12,15,500	Furniture as on 1-4-2021	9,000
Purchases return	29,000	Discounts allowed	37,700
Carriage inwards	93,000	General expenses	19,600
Rent	28,500	Audit fees	3,500
Salaries	46,500	Fire insurance premium	3,000
Sundry debtors	1,20,000	Travelling expenses	11,650
Sundry creditors	74,000	Postage and telegrams	4,350
Loan from Dena Bank Ltd. (at 12%)	1,00,000	Cash in hand	1,900
Interest paid	4,500	Deposits at 10% as on 1-4-2021 (Dr.)	1,50,000
Printing and stationery	17,000	Drawings	50,000
Advertisement	56,000		

Adjustments:

- (1) Value of stock as on 31st March, 2022 is ₹ 3,93,000. This includes goods returned by customers on 31st March, 2022 to the value of ₹ 15,000 for which no entry has been passed in the books.
- (2) Purchases include furniture purchased on 1st January, 2022 for ₹10,000.
- (3) Depreciation should be provided on furniture at 10% per annum.
- (4) The loan account from Dena bank in the books of Ganguli appears as follows:

		₹			₹
31.3.2022	To Balance c/d	1,00,000	1.4.2021	By Balance b/d	50,000
			31.3.2022	By Bank	50,000
		1,00,000			1,00,000

- (5) Sundry debtors include ₹ 20,000 due from Robert and sundry creditors include ₹ 10,000 due to him.
 - (6) Interest paid include ₹ 3,000 paid to Dena bank.
 - (7) Interest received represents ₹ 1,000 from the sundry debtors (due to delay on their part) and the balance on investments and deposits.
 - (8) Provide for interest payable to Dena bank and for interest receivable on investments and deposits.
 - (9) Make provision for doubtful debts at 5% on the balance under sundry debtors. No such provision need to be made for the deposits.
2. Sengupta & Co. employs a team of eight workers who were paid ₹30,000 per month each in the year ending 31st March, 2021. At the start of financial year 2021-2022, the company raised salaries by 10% to ₹33,000 per month each.

On October 1, 2021 the company hired two trainees at salary of ₹21,000 per month each. The work force are paid salary on the first working day of every month, one month in arrears, so that the employees receive their salary for January on the first working day of February etc.

You are required to calculate:

- (i) Amount of salaries which would be charged to the profit and loss for the year ended 31st March, 2022.
- (ii) Amount actually paid as salaries during 2021-22
- (iii) Outstanding Salaries as on 31st March, 2022.

3. You are required, prepare a Trading and Profit and Loss Account for the year ending 31st March, 2022 and a Balance Sheet as on that date from the Trial Balance given below:

Particulars	₹	Particulars	₹
Debit Balance:			
Trade receivables	3,50,000	Salaries	2,20,000
Inventory 1st April, 2021	5,00,000	Purchases	12,50,00
Cash in Hand	5,60,000	Plant and Machinery	15,70,000
Wages	3,00,000	Credit Balance:	
Bad Debts	50,000	Capital	25,00,000
Furniture and Fixtures	1,50,000	Trade payables	9,00,000
Depreciation	1,50,000	Sales	17,00,000

On 31st March, 2022 the Inventory was valued at ₹10,00,000.

4. Mr. Kotriwal is engaged in business of selling magazines. Several of his customers pay money in advance for subscribing his magazines. Information related to year ended 31st March 2022 has been given below:

On 1.4.2021 he had a balance of ₹2,00,000 advance from customers of which ₹1,50,000 is related to year 2021-22 while remaining pertains to year 2022-23. During the year 2021-22 he made cash sales of ₹5,00,000. You are required to compute:

- (i) Total income for the year 2021-22.
(ii) Total money received during the year if the closing balance in advance from customers account is ₹1,70,000.
5. Mr. Birla is a proprietor engaged in business of trading electronics. An excerpt from his Trading & P&L account is as follows:

Trading and P&L A/c for the year ended 31st March, 2022

Particulars	₹	Particulars	₹
To Cost of Goods Sold	45,00,000	By Sales	C
To Gross Profit c/d	D		F
	F		D
To Rent A/c	26,00,000	By Gross Profit b/d	D
To Office Expenses	13,00,000	By Miscellaneous Income	E
To Selling Expenses	B		

<i>To Commission to Manager (on Net Profit before charging such commission)</i>	2,00,000		
<i>To Net Profit</i>	A		
	G		60,00,000

Commission is charged at the rate of 10%.

Selling Expenses amount to 1% of total sales.

You are required to compute the missing figures.

ANSWERS/HINTS

True and False

1. True: Profit and loss account shows either net profit or net loss for a particular period.
2. False: Gains from the sale or exchange of assets are considered as the revenue of the business. But this revenue not in the ordinary course of business so it is capital receipts.
3. True: The salary paid in advance is an asset it is not an expense because it neither reduces assets or nor increase liabilities.
4. True: A loss is an expenditure of the business which does not bring any gain to the business.
5. False: All liabilities which become due for payment within one year are classified as current liabilities.
6. True: Current assets are all the assets which are expected to be realized or sold or consumed within one year.
7. True: When an asset is purchase capital expenditure is incurred and when the asset is put to use expenses are incurred in consumption.
8. True: Debit balance of accounts are treated as expenses whose benefit is already received or expired.
9. True: Gross profit is obtained by deducting cost of goods sold from sales.
10. False: If the debit side of the trading account exceeds its credit side then the balance is termed as gross loss.
11. False: The provision for bad debts is debited to debited to Profit and loss Account, in Balance Sheet it is shown either on liability side or deducted from the head Debtors.

12. True: According to the provision of conservatism provision is maintained for the losses to be incurred in future. Discount on creditors is an income so provision is not maintained.
13. False: The debts written off as bad, if recovered subsequently are credited to Bad Debts Recovered Account and becomes an income.
14. False: Income received in advance is reduces it from the concerned income in profit and loss account. And it is shows it as a liability in the current balance sheet under the head Current Liabilities.
15. False: Premium paid on the life policy of a proprietor is to be debited to capital account, as it is personal expense.
16. True: Depreciation is charge on each of the asset on a certain percentage. Depreciation is a charge to profit and loss account and should be debited to profit & loss account by crediting the respective assets. If it appears in trial balance then it is taken only to profit and loss account.
17. False: Personal purchases included in the purchases day book are deducted from the purchases account in the Trading account.
18. True: Any benefit given to the staff is debited to the salary account.
19. False: Goods taken by the proprietor for personal use should be credited to Purchase Account as less goods are left in the business for sale.
20. True: The closing Stock appears in the trial balance only when it is adjusted against purchases by passing the entry. In this case, closing stock is not entered in Trading Account and is shown only in Balance Sheet.

Multiple Choice Questions

1.	(a)	2.	(c)	3.	(b)	4.	(c)	5.	(b)	6.	(c)
7.	(c)	8.	(c)	9.	(b)	10.	(c)	11.	(a)	12.	(b)

Theoretical Questions

1. (a) The balance sheet may be defined as "a statement which sets out the assets and liabilities of a firm or an institution as at a certain date." Since even a single transaction will make a difference to some of the assets or liabilities, the balance sheet is true only at a particular point of time. That is the significance of the word "as at."

- (b) At the end of the year, it is necessary to ascertain the net profit or the net loss. For this purpose, it is first necessary to know the gross profit or gross loss with the helps to Trading A/c. Gross Profit is the difference between the selling price and the cost of the goods sold.
- (c) Closing entries: The entries that have to be made in the journal for preparing the Trading and the Profit and Loss Account that is for transferring the various accounts to these two accounts are known as closing entries.
2. Provision means "any amount written off or retained by way of providing for depreciation, renewal or diminution in the value of assets or retained by way of providing for any known liability of which the amount cannot be determined with substantial accuracy".

Reserve Fund: It signifies the amount standing to the credit of the reserve that is invested outside the business in securities which are readily realisable e.g., when the amounts set apart for replacement of an asset are invested periodically, in government securities or shares. The account to which these amounts are annually credited is described as the Reserve Fund.

Working Notes:

1.	Calculation of provision for doubtful debts:	₹
	Sundry debtors as per trial balance	1,20,000
	Less: Sales returns not recorded	(15,000)
		1,05,000
	Less: Cancellation against sundry creditors	(10,000)
	Adjusted balance of sundry debtors	95,000
	Provision for doubtful debts @ 5%	4,750
2.	Accrued interest on bank loan:	
	Annual interest @12%	6,000
	Less: Interest paid to Dena bank	(3,000)
	Accrued interest	3,000
3.	Interest accrued on investments and deposits:	
	Annual interest on investments @ 5%	1,250
	Annual interest on deposits @ 10%	15,000
		16,250
	Less: Interest received on investments and deposits	(6,250)
	Accrued interest	10,000
2.		₹
(i)	Salaries to be charged to profit and loss account for the year ended 31st March, 2022:	
	Salaries of 8 employees for full year @ ₹ 33,000 per month each	31,68,000
	Salaries of 2 trainees for 6 months @ ₹ 21,000 p.m.	2,52,000
		34,20,000
(ii)	Salaries actually paid in 2021-22	
	March, 2021 salaries paid in April, 2021 (8 x 30,000)	2,40,000

Salaries of 8 employees for April 2021 to March, 2022 paid in May 2021 to March 2022 @ ₹ 33,000 for 11 months	29,04,000
Salaries of 2 trainees for October 2021 to February 2022 paid in November 2021 to March 2022 @ ₹ 21,000 for 5 months	2,10,000
	33,54,000

(iii) **Outstanding salaries as at 31st March, 2022**

8 employees @ ₹ 33,000 each for 1 month	2,64,000
2 trainees @ ₹ 21,000 each for 1 month	42,000
	3,06,000

3. Trading and Profit and Loss Account for the year ending 31st March, 2022

Particulars	₹	Particulars	₹
To Opening Inventory	5,00,000	By Sales	17,00,000
To Purchases	12,50,000	By Closing Inventory	10,00,000
To Wages	3,00,000		
To Gross Profit	6,50,000		
	27,00,000		27,00,000
To Bad Debts	50,000	By Gross Profit	6,50,000
To Depreciation	1,50,000		
To Salaries	2,20,000		
To Net Profit transferred. to Capital A/c	2,30,000		
	6,50,000		6,50,000

Balance Sheet as at 31st March, 2022

Liabilities	₹	₹	Assets	₹	₹
Trade payables		9,00,000	Cash in Hand	5,60,000	
<i>Capital:</i>			Trade receivables	3,50,000	
Previous Balance	25,00,000		Closing Inventory	10,00,000	19,10,000
Add : Net Profit	2,30,000	27,30,000			
			Furniture & Fixtures	1,50,000	
			Plant & Machinery	15,70,000	17,20,000
		36,30,000			36,30,000

4. (i) Computation of Income for the year 2021-22:

	₹
Money received during the year related to 2021-22	5,00,000
<i>Add:</i> Money received in advance during previous years	1,50,000
Total income of the year 2021-22	6,50,000

(ii) Advance from Customers A/c

Date	Particulars	₹	Date	Particulars	₹
	To Sales A/c	1,50,000	1.4.2021	By Balance b/d	2,00,000
	(Advance related to current year transferred to sales)			By Bank A/c (Balancing Figure)	1,20,000
31.3.22	To Balance c/d	1,70,000			
		3,20,000			3,20,000

So, total money received during the year is:

	₹
Cash Sales during the year	5,00,000
<i>Add:</i> Advance received during the year	1,20,000
Total money received during the year	6,20,000

5. A) Computation of Net Profit:

Commission Manager = Rate of Commission X Net Profit before charging such commission

So, Commission to manager = 10/100 X Net Profit before charging such commission

= ₹ 2,00,000 = 10/100 X Net Profit before charging such commission

= Net Profit before charging such commission = ₹ 20,00,000

Net Profit (A) = ₹ (20,00,000 - 2,00,000) = ₹ 18,00,000

B) Computation of Selling Expenses:

Total income appearing in P&L A/c = ₹ 60,00,000

Total expenses other than selling expenses = ₹(26,00,000 + 13,00,000 + 2,00,000) = ₹ 41,00,000

So, Selling Expenses + Remaining Expenses + Net Profit = Total Income

= Selling Expenses = ₹ 60,00,000 - ₹ 41,00,000 - ₹ 18,00,000

= Selling Expenses = ₹ 1,00,000

C) Computation of Sales:

We have been given selling expenses amount to 1% of Sales

So, Sales = $\frac{\text{Selling Expenses}}{1} \times 100 = \frac{1,00,000}{1} \times 100 = ₹ 100,00,000$

D) Computation of Gross Profit:

Trading A/c

Particulars	₹	Particulars	₹
To COGS	45,00,000	By Sales (from C above)	100,00,000
To Gross Profit (Balancing Figure)	55,00,000		
Total (F)	100,00,000	Total (F)	100,00,000

So, Gross Profit (D) = ₹ 55,00,000

E) Miscellaneous Income = Total Income in P&L - Gross Profit
= ₹ (60,00,000 - 55,00,000) = ₹ 5,00,000

F) = ₹ 100,00,000 (As computed in D above)

G) = ₹ 60,00,000 (Total of both sides of P&L is equal after balancing has been done)

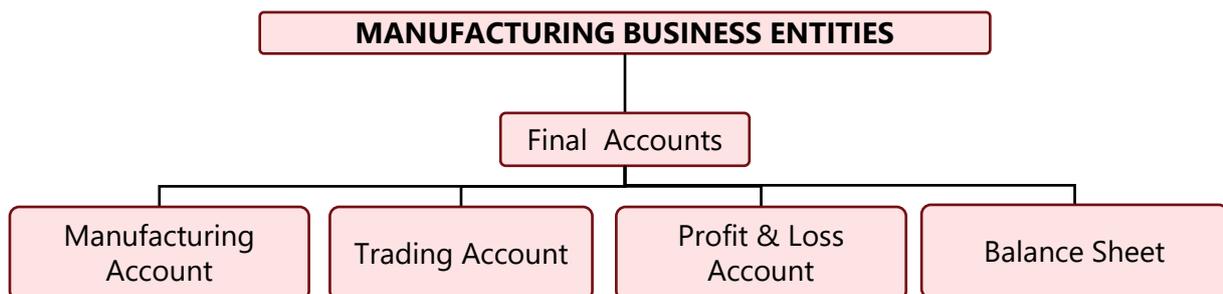

UNIT – 2 FINAL ACCOUNTS OF MANUFACTURING ENTITIES

LEARNING OUTCOMES

After studying this unit, you would be able to:

- ◆ Understand the purpose of preparing Manufacturing Account.
- ◆ Learn the items to be included in the Manufacturing Account
- ◆ Draw Manufacturing accounts of Manufacturing entities

UNIT OVERVIEW

2.1 INTRODUCTION

The manufacturing entities generally prepare a separate Manufacturing Account as a part of Final accounts in addition to Trading Account, Profit and Loss Account and Balance Sheet. The objective of preparing Manufacturing Account is to determine manufacturing costs of finished goods for assessing the cost effectiveness of manufacturing activities. Manufacturing costs of finished goods are then transferred from the Manufacturing Account to Trading Account.

- (a) Trading account shows Gross Profit while Manufacturing Account shows cost of goods sold which includes direct expenses.
- (b) Manufacturing account also deals with the raw materials, and work in progress while the trading account would deal with finished goods only.

2.2 PURPOSE

A manufacturing account serves the following functions:

- (1) It shows the total cost of manufacturing the finished products and sets out in detail, with appropriate classifications, the constituent elements of such cost. It is, therefore, debited with the cost of materials, manufacturing wages and expenses incurred directly or indirectly to manufacture.
- (2) It provides details of factory cost and facilitates reconciliation of financial books with cost records. It also serves as a basis of comparison of manufacturing operations from period to period.
- (3) The Manufacturing Account may also be used for various other purposes. For example, if the output is carried to the Trading Account at market prices, it shows the profit or loss on manufacture. Similarly, it may also be used to fix the amount of production linked bonus when such schemes are in force.

2.3 MANUFACTURING COSTS

Manufacturing costs are classified into:

+ Raw Material Consumed
+ Direct Manufacturing Wages
+ Direct Manufacturing Expenses
+ Direct Manufacturing Cost
+ Indirect Manufacturing expenses or	
+ Manufacturing Overhead
Total Manufacturing Cost	_____

Raw Material consumed is arrived at after adjustment of opening and closing Inventory of raw materials:

$$\text{Raw Material Consumed} = \text{Opening inventory} + \text{Purchases} - \text{Closing inventory} \\ \text{of Raw Materials} \qquad \qquad \qquad \text{of Raw Materials}$$

If there remain unfinished goods at the beginning and at the end of the accounting period, cost of such unfinished goods (also termed as Work-In-Process) is shown in the Manufacturing Account.

Opening inventory of Work-in-Process is posted to the debit of the Manufacturing Account and closing inventory of Work-in-Process is posted to the credit of the Manufacturing Account.

DIRECT MANUFACTURING EXPENSES

Direct manufacturing expenses are costs, other than material or wages, which are incurred for a specific product or saleable service.

Examples of direct manufacturing expenses are (i) Royalties for using license or technology if based on units produced, (ii) Hire charge of the plant and machinery used on hire, if based on units produced, etc.

When royalty or hire charges are based on units produced, these expenses directly vary with production.

ILLUSTRATION 1

1,00,000 units were produced in a factory. Per unit material cost was ₹ 10 and per unit labour cost was ₹ 5. That apart it was agreed to pay royalty @ ₹ 3 per unit to the Japanese collaborator who supplied technology.

Required

Calculate Manufacturing Cost.

SOLUTION

In this case Manufacturing Cost comprises of –

Raw Material consumed	(1,00,000 × ₹ 10)	₹ 10,00,000
Direct Wages	(1,00,000 × ₹ 5)	₹ 5,00,000
Direct Expenses	(1,00,000 × ₹ 3)	₹ 3,00,000
		₹ 18,00,000

INDIRECT MANUFACTURING EXPENSES OR OVERHEAD EXPENSES

These are also called Manufacturing overhead, Production overhead, Works overhead, etc. Overhead is defined as total cost of indirect material, indirect wages and indirect expenses.

$$\text{Overhead} = \text{Indirect Material} + \text{Indirect Wages} + \text{Indirect Expenses}$$

Indirect material means materials which cannot be linked directly with the units produced, for example, stores consumed for repair and maintenance work, small tools, fuel and lubricating oil, etc.

Indirect wages are those which cannot be directly linked to the units produced, for example, wages for maintenance works, holding pay, etc.

Indirect expenses are those which cannot be directly linked to the units produced, for example, training expenses, depreciation of plant and machinery, depreciation of factory shed, insurance premium for plant and machinery, factory shed, etc.

Accordingly, indirect manufacturing expenses comprise indirect material, indirect wages and indirect expenses of the manufacturing division.

BY-PRODUCTS

In most manufacturing operations, the production of the main product is accompanied by the production of a subsidiary product which has a value on sale. For example, the production of hydrogenated vegetable oil is accompanied by the production of oxygen gas and the production of steel yields scrap. The subsidiary product is termed as a by-product because its production is not consciously undertaken but results out of the production of the main product. It is usually very difficult to ascertain the cost of the product. Moreover, its value usually forms a very small percentage of the main product.

By-product is a secondary product. This is produced from the same raw materials, which are used for producing the main product and without incurring any additional expenses from the same production process in which the main product is produced. Some examples of by-product are given below:

- (i) Molasses is the by-product in sugar manufacturing;
- (ii) Butter milk is the by-product of a dairy which produces butter and cheese, etc.

By-products generally have insignificant value as compared to the value of main product. They are **generally valued at net realizable value**, if their costs cannot be separately identified. It is often treated, as Other Operating income" but the correct treatment would be to credit the sale value of the by-product to Manufacturing Account so as to reduce to that extent, the cost of manufacture of main product.

2.4 DESIGN OF A MANUFACTURING ACCOUNT

There is no standardized design for the presentation of a Manufacturing Account. Given below is a format covering various elements:

Manufacturing Account

Particulars	Units	Amount	Particulars	Units	Amount
		₹			₹
To Raw Material Consumed:			By By-products at net		
Opening inventory			realizable value		
<i>Add:</i> Purchases		By Closing Work-in- Process		
<i>Less:</i> Closing inventory		By Trading A/c		
To Direct Wages	Cost of production		
To Direct expenses:				
Prime cost				
To Factory overheads:					
Royalty				
Hire charges				
To Indirect expenses:				
Repairs & Maintenance				
Depreciation			
Factory cost				
To Opening Work-in-process				

Tutorial Note: Frequently, problems are set, in which all the ledger balances are not given. Instead, details are given regarding the number of items in Inventories, quantity manufactured etc. the figures for Inventories, sales etc., would therefore have to be worked out independently from the data given.

The following general rules may be observed.

(a) The Manufacturing Account should have columns showing the quantities and values. Frequently, all the quantities are not given and the quantities applicable to one or more of the items would have to be worked out. For example, if the question does not state the total number of items sold, the quantity can be worked out by adding opening inventory and units manufactured and deducting closing inventory. It is, therefore, useful to have quantity columns in the account so that it can be seen that both sides balance.

(b) The Manufacturing Account will show the quantity of raw materials in inventory at the beginning and at the end of the year and the purchases during the year. As regards finished goods, it will only show the quantity manufactured and, as regards work-in-progress, the opening and closing amounts.

(c) The Trading Account will show the quantities of finished goods manufactured and sold and the opening and closing inventory. It will not show the quantity of raw materials or work-in-progress.

(d) For determining the value of closing inventory, in the absence of specific instruction to the contrary, it must be assumed that sales have been on "first in-first out" basis, that is, the closing inventory consists as far as possible of goods produced during the year, the opening inventory being sold out.

It may be mentioned here that nowadays no manufacturing business entity prepares manufacturing account as part of its final set of accounts. Even the items of manufacturing account are shown either in trading account (in case of non-corporate entities) or in Statement of profit and loss (in case of corporate entities).

The procedure of preparation of Trading Account, Profit and Loss Account and Balance Sheet have already been explained in Unit 1 of this chapter. Students should refer the earlier unit for attempting the problems based on the preparation of complete set of final accounts of a sole proprietor.

ILLUSTRATION 2

Mr. Vimal runs a factory which produces soaps. Following details were available in respect of his manufacturing activities for the year ended on 31.3.2022:

	₹
Opening Work-in-Process (10,000 units)	16,000
Closing Work-in-Process (12,000 units)	20,000
Opening inventory of Raw Materials	1,70,000
Closing inventory of Raw Materials	1,90,000
Purchases	8,20,000
Hire charges of machine @ ₹ 0.60 per unit manufactured	
Hire charges of factory	2,20,000
Direct wages-Contracted @ ₹ 0.80 per unit manufactured and @ ₹ 0.40 per unit of Closing W.I.P.	
Repairs and Maintenance	1,80,000
Units produced – 5,00,000 units	

Required

Prepare a Manufacturing Account of Mr. Vimal for the year ended 31.3.2022.

SOLUTION

In the Books of Mr. Vimal

Manufacturing Account for the Year ended 31.3.2022

Particulars		Units	Amount	Particulars	Units	Amount
			₹			₹
To Opening Work- in- Process		10,000	16,000	By Closing Work- in-Process	12,000	20,000
To Raw Materials Consumed:				By Trading A/c – Cost of finished goods transferred	5,00,000	19,00,800
Opening inventory	1,70,000					
<i>Add:</i> Purchases	8,20,000					
	9,90,000					
Closing Inventory	(1,90,000)		8,00,000			
To Direct Wages – W.N. (1)			4,04,800			
To Direct expenses:						
Hire charges on Machinery – W.N. (2)			3,00,000			
To Indirect expenses:						
Hire charges of Factory Shed			2,20,000			
Repairs Maintenance			1,80,000			
			19,20,800			19,20,800

Working Notes:

- | | |
|---------------------------------------------------------|------------|
| (1) Direct Wages – 5,00,000 units @ ₹ 0.80 = | ₹ 4,00,000 |
| 12,000 units @ ₹ 0.40 = | ₹ 4,800 |
| | ₹ 4,04,800 |
| (2) Hire charges on Machinery (5,00,000 units @ ₹ 0.60) | ₹ 3,00,000 |

ILLUSTRATION 3

On 31st March, 2022 the Trial Balance of Mr. White were as follows:

Trial Balance as on 31st March, 2022

Particulars	Dr. ₹	Particulars	Cr. ₹
Stock on 1st April 2021			
Raw Materials	21,000	Sundry Creditors	15,000
Work in Progress	9,500	Bills Payable	7,500
Finished goods	15,500	Sale of Scrap	2,500
Sundry Debtors	24,000	Commission Received	450
Carriage on Purchases	1,500	Provision for doubtful debts	1,650
Bills Receivable	15,000	Capital Account	1,00,000
Wages	13,000	Sales	1,67,200
Salaries	10,000	Bank Overdraft	8,500
Telephone, Postage etc.	1,000		
Repairs to Office Furniture	350		
Cash at Bank	17,000		
Office Furniture	10,000		
Repairs to Plant	1,100		
Purchases	85,000		
Plant and Machinery	70,000		
Rent	6,000		
Lighting	1,350		
General Expenses	1,500		
	3,02,800		3,02,800

The following additional information is available:

Stocks on 31st March, 2022 were:

Raw Materials ₹ 16,200

Finished goods ₹ 18,100

Semi-finished goods ₹ 7,800

Salaries and wages unpaid for March 2022 were respectively, ₹ 900 and ₹ 2,000

Machinery is to be depreciated by 10% and office furniture by 7 1/2 %

Provision for doubtful debts is to be maintained @ 1% of sales

Office premises occupy 1/4 of total area.

Lighting is to be charged as to 2/3 to factory and 1/3 to office.

Prepare the Manufacturing Account Trading Account, Profit and Loss Account and the Balance Sheet relating to 31st March 2022.

SOLUTION

			Bills Receivable		15,000
			Cash at Bank		17,000
		1,68,678			1,68,678

NOTE: The ICAI has, through guidance note (August, 2023 edition) provided guidance on the formats of financial statements for non-corporate entities. This would enable these entities to communicate their financial performance and financial position in standardised formats thereby enhancing their consistency and comparability. The said format of financial statements has been given as **Annexure – I** at the end of the chapter for awareness of students. It may be noted that this format does not form part of syllabus and has been given here for the knowledge of students only.

SUMMARY

- ◆ Direct manufacturing expenses are costs, other than material or wages, which are incurred for a specific product or saleable service.
- ◆ Indirect Manufacturing expenses these are also called Manufacturing overhead, Production overhead, Works overhead, etc.
- ◆ Overhead is defined as total cost of indirect material, indirect wages and indirect expenses.
- ◆ Indirect material means materials which cannot be linked directly with the units produced, for example, stores consumed for repair and maintenance work, small tools, fuel and lubricating oil, etc. In most manufacturing operations, the production of the

main product is accompanied by the production of a subsidiary product which has a value on sale.

- ◆ By-product is a secondary product. This is produced from the same raw materials, which are used for producing the main product and without incurring any additional expenses from the same production process in which the main product is produced.

TEST YOUR KNOWLEDGE

True and False

1. *By-products valued at cost or net realisable value whichever is lower.*
2. *The manufacturing account is prepared to ascertain the profit or loss on the goods produced.*
3. *If there remain unfinished goods at the beginning and at the end of the accounting period, cost of such unfinished goods is shown in the Manufacturing Account.*
4. *Raw Material Consumed = Opening inventory of Raw Materials + Purchases – Closing inventory of Raw Materials.*
5. *The Trading Account will show the quantities of finished goods, raw materials and work-in-progress.*
6. *Overhead is defined as total cost of direct material, direct wages and direct expenses.*
7. *Manufacturing A/c is prepared by an enterprise engaged in trading activities.*

Multiple Choice Questions

1. *Under-statement of closing work in progress in the period will*
 - (a) *Understate cost of goods manufactured in that period.*
 - (b) *Overstate current assets.*
 - (c) *Understate net income in that period.*
 - (d) *None of the three.*
2. *Sales is equal to*
 - (a) *Cost of goods sold – Gross profit.*
 - (b) *Cost of goods sold + Gross profit.*
 - (c) *Gross profit – Cost of goods sold.*
 - (d) *Net profit + cost of goods sold.*

3. *Indirect Manufacturing expenses are also called*
 - (a) *Manufacturing overhead.*
 - (b) *Production overhead.*
 - (c) *Works overhead.*
 - (d) *All the three.*

4. *Sale value of the by-product is credited to*
 - (a) *Manufacturing account.*
 - (b) *Capital account.*
 - (c) *Overheads account.*
 - (d) *Trading account.*

5. *Manufacturing account shows*
 - (a) *Total cost of manufacturing the finished products.*
 - (b) *It provides details of factory cost.*
 - (c) *It facilitates reconciliation of financial books with cost records.*
 - (d) *All the three.*

Theoretical Questions

1. *Write short note on by-products.*
2. *Differentiate between Direct Manufacturing Expenses and Indirect Manufacturing expenses.*

Practical Questions

1. *Mr. Pankaj runs a factory which produces motor spares of export quality. The following details were obtained about his manufacturing expenses for the year ended on 31.3.2022.*

			₹
<i>W.I.P.</i>	<i>- Opening</i>		3,90,000
	<i>- Closing</i>		5,07,000
<i>Raw Materials</i>	<i>- Purchases</i>		12,10,000
	<i>- Opening</i>		3,02,000
	<i>- Closing</i>		3,10,000

	- Returned		18,000
	- Indirect material		16,000
Wages	- direct		2,10,000
	- indirect		48,000
Direct expenses	- Royalty on production		1,30,000
		- Repairs and maintenance	2,30,000
		- Depreciation on factory shed	40,000
		- Depreciation on plant & machinery	60,000
By-product at selling price			20,000

You are required to prepare Manufacturing Account of Mr. Pankaj for the year ended on 31.3.2022.

2. Following are the Manufacturing A/c, Creditors A/c and Trading A/c provided by Ms. Shivi related to 2021-22. There are certain figures missing from these accounts.

Raw Material A/c

Date	Particulars	Amount ₹	Date	Particulars	Amount ₹
	To Opening Stock A/c	1,00,000		By Raw Material Consumed
	To Creditors A/c		By Closing Stock A/c

Creditors A/c

Date	Particulars	Amount ₹	Date	Particulars	Amount ₹
	To Bank A/c	22,00,000		By Balance b/d	15,00,000
	To Balance c/d	6,00,000			

Manufacturing A/c

Particulars	Amount ₹	Particulars	Amount ₹
To Raw Material Consumed	By Trading A/c	17,94,000

To Wages	3,50,000		
To Depreciation	2,00,000		
To Direct Expenses	2,44,000		

Additional Information:

- 1) Purchase of machinery worth ₹ 10,00,000 has been omitted. Machinery are chargeable at a depreciation rate of 10%.
- 2) Wages include the following
 - Paid to Factory Workers - ₹ 3,00,000
 - Paid to labour at office - ₹ 50,000
- 3) Direct Expenses include following:
 - ♦ Electricity charges of ₹ 80,000 of which 30% pertained to office.
 - ♦ Fuel Charges of ₹ 20,000
 - ♦ Freight Inwards of ₹ 35,000
 - ♦ Delivery charges to customers - ₹ 20,000.

You are required to prepare revised Manufacturing A/c, and Raw Material A/c.

3. The following is the trial balance of Mr. Pandit for the year ended 31st March, 2022:

Trial Balance as on 31st March 2022

Particulars	Dr. ₹	Particulars	Cr. ₹
Opening Stock:			
Raw Materials	1,50,000	Sundry Creditors	50,000
Finished goods	75,000	Purchase Returns	5,000
Purchase of Raw Materials	5,00,000	Capital	1,00,000
Land & Building	1,00,000	Bills Payable	24,000
Loose tools	30,000	Long-Term Loan	2,00,000
Plant & Machinery	30,000	Provision for Bad and Doubtful Debts	2,000
Investments	25,000	Sales	8,50,000
Cash in Hand	20,000	Bank Overdraft	23,000
Cash at Bank	5,000		

<i>Furniture & Fixtures</i>	15,000		
<i>Bills Receivable</i>	15,000		
<i>Sundry Debtors</i>	40,000		
<i>Drawings</i>	20,000		
<i>Salaries</i>	20,000		
<i>Coal and Fuel</i>	15,000		
<i>Factory rent & rates</i>	20,000		
<i>General Expenses</i>	4,000		
<i>Advertisement</i>	5,000		
<i>Sales Return</i>	10,000		
<i>Bad Debts</i>	4,000		
<i>Direct Wages (Factory)</i>	80,000		
<i>Power</i>	30,000		
<i>Interest Paid</i>	7,000		
<i>Discount Allowed</i>	3,000		
<i>Carriage Inwards</i>	15,000		
<i>Carriage Outwards</i>	7,000		
<i>Commission Paid</i>	9,000		
	12,54,000		12,54,000

Additional Information

Stock of finished goods at the end of the year ₹1,00,000.

A provision for doubtful debts is to be created. at 5% on Sundry Debtors. Depreciation on building ₹ 1,000 and ₹ 3,000 on Plant & Machinery to be provided.

Accrued commission of ₹ 12,500 is to be received for the year. Interest has accrued on investment ₹ 15,000.

Salary Outstanding ₹ 2,000 and Prepaid Interest ₹ 1,500.

You are required to prepare Manufacturing, Trading and Profit and Loss Account for the year ended 31st March, 2022.

ANSWERS/HINTS

True and False

1. False: By-products generally have insignificant value as compared to the value of main product. Therefore, they are generally valued at net realizable value.
2. False: The objective of preparing Manufacturing Account is to determine manufacturing costs of finished goods for assessing the cost effectiveness of manufacturing activities.
3. True: Manufacturing account deals with the raw material and work in progress.
4. True: Raw Material consumed is arrived at after adjustment of opening and closing inventory of raw materials and purchases.
5. False: The Trading Account will show the quantities of finished goods manufactured and sold and the opening and closing inventory. It will not show the quantity of raw materials or work-in-progress.
6. False: Overhead is defined as total cost of indirect material, indirect wages and indirect expenses.
7. False: Manufacturing A/c is prepared by the entities engaged in manufacturing activities.

Multiple Choice Questions

1.	(c)	2.	(b)	3.	(d)	4.	(a)	5.	(d)		
----	-----	----	-----	----	-----	----	-----	----	-----	--	--

Theoretical Questions

1. By-products generally have insignificant value as compared to the value of main product. They are **generally valued at net realisable value**, if their costs cannot be separately identified. It is often treated, as "Miscellaneous income" but the correct treatment would be to credit the sale value of the by-product to Manufacturing Account so as to reduce to that extent, the cost of manufacture of main product.
2. **Direct manufacturing expenses** are costs, other than material or wages, which are incurred for a specific product or saleable service.

Indirect Manufacturing expenses are also called Manufacturing overhead, Production overhead, Works overhead, etc. Overhead is defined as total cost of indirect material, indirect wages and indirect expenses.

For detail, refer para 2.3

Practical Problems

1.

In the Books of Mr. Pankaj

Manufacturing Account for the year ended on March 31,2022

Particulars		Amount	Particulars	Amount
	₹	₹		₹
To Opening W.I.P.		3,90,000	By Closing W-I-P	5,07,000
To Raw Material Consumed:			By by products	20,000
Opening inventory	3,02,000		By Trading A/c-	17,81,000
Purchases	12,10,000		Cost of finished goods transferred	
	15,12,000			
Less: Return	(18,000)			
	14,94,000			
Less: Closing inventory	(3,10,000)	11,84,000		
To Direct Wages		2,10,000		
To Direct expenses:				
Royalty		1,30,000		
To Manufacturing Overhead:				
Indirect Material	16,000			
Indirect Wages	48,000			
Repairs & Maintenance	2,30,000			
Depreciation on Factory Shed	40,000			
Depreciation on Plant & Machinery	60,000	3,94,000		
		23,08,000		23,08,000

2.

Manufacturing A/c

Particulars	Amount ₹	Particulars	Amount ₹
To Raw Material Consumed (Balancing Figure)	10,00,000	By Trading A/c (W.N. 4)	18,00,000

To Wages (W.N. 2)	3,00,000		
To Depreciation (W.N. 1)	3,00,000		
To Direct Expenses (W.N. 3)	2,00,000		
	18,00,000		18,00,000

Raw Material A/c

Date	Particulars	Amount ₹	Date	Particulars	Amount ₹
	To Opening Stock A/c	1,00,000		By Raw Material Consumed (from Trading A/c above)	10,00,000
	To Creditors A/c (W.N. 5)	13,00,000		By Closing Stock A/c (Balancing Figure)	4,00,000
		14,00,000			14,00,000

Working Notes:

- 1) Since purchase of Machinery worth ₹ 10,00,000 has been omitted.
So, depreciation omitted from being charged = ₹ 10,00,000 X 10%
= ₹ 1,00,000
Correct total depreciation expense = ₹ (2,00,000 + 1,00,000)
= ₹ 3,00,000
- 2) Wages worth ₹ 50,000 will be excluded from manufacturing account as they pertain to office and hence will be charged P&L A/c.
- 3) Expenses to be excluded from direct expenses:

Office Electricity Charges (80,000 X 30%)	24,000
Delivery Charges to Customers	<u>20,000</u>
Total expenses not part of Direct Expenses	<u>44,000</u>

=> Revised Direct Expenses = ₹ (2,44,000 - 44,000) = ₹ 2,00,000

Fuel charges are related to factory expenses and also freight inwards are incurred for bringing goods to factory/ godown so they are part of direct expenses.

4) Revised Balance to be transferred to Trading A/c:

Particulars	Amount ₹
Current Balance transferred	17,94,000
Add: Depreciation charges not recorded earlier	1,00,000
Less: Wages related to Office	(50,000)
Less: Office Expenses	(44,000)
Revised balance to be transferred	18,00,000

5) Creditors A/c

Date	Particulars	Amount ₹	Date	Particulars	Amount ₹
	To Bank A/c	22,00,000		By Balance b/d	15,00,000
	To Balance c/d	6,00,000		By Raw Materials A/c (Bal. figure)	13,00,000
		28,00,000			28,00,000

3. In the books of Mr. Pandit

Notes

GENERAL INSTRUCTIONS FOR PREPARATION OF BALANCE SHEET

1. An asset shall be classified as current when it satisfies any of the following criteria:
 - (a) it is expected to be realized in, or is intended for sale or consumption in, the company's normal operating cycle;
 - (b) it is held primarily for the purpose of being traded;
 - (c) it is expected to be realized within twelve months after the reporting date; or
 - (d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets shall be classified as non-current.

2. An operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. Where the normal operating cycle cannot be identified, it is assumed to have a duration of 12 months.
3. A liability shall be classified as current when it satisfies any of the following criteria:
 - (a) it is expected to be settled in the company's normal operating cycle;
 - (b) it is held primarily for the purpose of being traded;
 - (c) it is due to be settled within twelve months after the reporting date; or
 - (d) the Non-Corporate entity does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities shall be classified as non-current.

4. A receivable shall be classified as a 'trade receivable' if it is in respect of the amount due on account of goods sold or services rendered in the normal course of business.
5. A payable shall be classified as a 'trade payable' if it is in respect of the amount due on account of goods purchased or services received in the normal course of business.
6. A Non-Corporate entity shall disclose the following in the Notes to Accounts:

A. Owners' Funds

For each owner capital/current account, following items for the year to be disclosed separately:

- (a) opening balance;
- (b) capital Introduced/Contributed during the year;
- (c) remuneration for the year;
- (d) interest for the year;
- (e) withdrawals during the year;
- (f) share of profit or loss for the year (share in % and amount);
- (g) closing balance.

B. Reserves and Surplus

- (i) Reserves and Surplus shall be classified as:
 - (a) Capital Reserves;
 - (b) Revaluation Reserve;
 - (c) Other Reserves – (specify the nature and purpose of each reserve and the amount in respect thereof);
 - (d) Undistributed Surplus i.e. balance in Statement of Profit and Loss.
- (ii) Debit balance of statement of profit and loss shall be shown as a negative figure under the head 'Undistributed Surplus'. Similarly, the balance of 'Reserves and Surplus', after adjusting negative balance of surplus, if any, shall be shown under the head 'Reserves and Surplus' even if the resulting figure is in the negative.

C. Long-Term Borrowings

- (i) Long-term borrowings shall be classified as:
 - (a) Term loans
 - From banks
 - From other parties
 - (c) Deferred payment liabilities.
 - (d) Loans and advances from related parties.
 - (e) Long term maturities of finance lease obligations
 - (f) Other loans and advances (specify nature).
- (ii) Borrowings shall further be sub-classified as secured and unsecured. Nature of security shall be specified separately in each case.

- (iii) Where loans have been guaranteed by partners/proprietor/owners or others, the aggregate amount of such loans under each head shall be disclosed.
- (iv) Terms of repayment of term loans and other loans shall be stated.

D. Long-term provisions

The amounts shall be classified as:

- (a) Provision for employee benefits.
- (b) Others (specify nature).

E. Short-term borrowings

- (i) Short-term borrowings shall be classified as:
 - (a) Loans repayable on demand
 - From banks
 - From other parties
 - (b) Loans and advances from related parties.
 - (c) Other loans and advances (specify nature).
- (ii) Borrowings shall further be sub-classified as secured and unsecured. Nature of security shall be specified separately in each case.
- (iii) Where loans have been guaranteed by partners/proprietor/ owners or others, the aggregate amount of such loans under each head shall be disclosed.
- (iv) current maturities of Long term borrowings shall be disclosed separately.

F. Trade Payables

The following details relating to Micro, Small and Medium Enterprises shall be disclosed in the notes:-

- (a) the principal amount and the interest due thereon (to be shown separately) remaining unpaid to any supplier at the end of each accounting year;
- (b) the amount of interest paid by the buyer in terms of section 16 of the Micro, Small and Medium Enterprises Development Act, 2006, along with the amount of the payment made to the supplier beyond the appointed day during each accounting year;

- (c) the amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the Micro, Small and Medium Enterprises Development Act, 2006;
- (d) the amount of interest accrued and remaining unpaid at the end of each accounting year; and
- (e) the amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues above are actually paid to the small enterprise, for the purpose of disallowance of a deductible expenditure under section 23 of the Micro, Small and Medium Enterprises Development Act, 2006.

Explanation.-The terms 'appointed day', 'buyer', 'enterprise', 'micro enterprise', 'small enterprise' and 'supplier', shall have the same meaning assigned to those under clauses (b), (d), (e), (h), (m) and (n) respectively of section 2 of the Micro, Small and Medium Enterprises Development Act, 2006.

G. Other current liabilities

The amounts shall be classified as:

- (a) Current maturities of finance lease obligations;
- (b) Interest accrued but not due on borrowings;
- (c) Interest accrued and due on borrowings;
- (d) Income received in advance;
- (e) Other payables (specify nature);

H. Short-term provisions

The amounts shall be classified as:

- (a) Provision for employee benefits.
- (b) Others (specify nature).

I. Property, Plant and Equipment

- (i) Classification shall be given as:
 - (a) Land.
 - (b) Buildings.
 - (c) Plant and Equipment.

- (d) Furniture and Fixtures.
 - (e) Vehicles.
 - (f) Office equipment.
 - (g) Others (specify nature).
- (ii) Assets under lease shall be separately specified under each class of asset.
- (iii) A reconciliation of the gross and net carrying amounts of each class of assets at the beginning and end of the reporting period showing additions, disposals acquisitions through business combinations, amount of change due to revaluation (if change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment) and other adjustments and the related depreciation and impairment losses/reversals shall be disclosed separately.

J. Intangible assets

- (i) Classification shall be given as:
- (a) Goodwill.
 - (b) Brands /trademarks.
 - (c) Computer software.
 - (d) Mastheads and publishing titles.
 - (e) Mining rights.
 - (f) Copyrights, and patents and other intellectual property rights, services and operating rights.
 - (g) Recipes, formulae, models, designs and prototypes.
 - (h) Licenses and franchise.
 - (i) Others (specify nature).
- (ii) A reconciliation of the gross and net carrying amounts of each class of assets at the beginning and end of the reporting period showing additions, disposals, acquisitions through business combinations, amount of change due to revaluation (if change is 10% or more in the aggregate of the net carrying value of each class of intangible assets) and other adjustments and the related amortisation and impairment losses or reversals shall be disclosed separately.

K. Non-current investments

- (i) Non-current investments shall be classified as trade investments and other investments and further classified as:
 - (a) Investment property;
 - (b) Investments in Equity Instruments;
 - (c) Investments in preference shares;
 - (d) Investments in Government or trust securities;
 - (e) Investments in debentures or bonds;
 - (f) Investments in Mutual Funds;
 - (g) Investments in partnership firms;
 - (h) Other non-current investments (specify nature)

Under each classification, details shall be given of names of the entities (indicating separately whether such entities are joint ventures or controlled special purpose entities) in whom investments have been made (showing separately investments which are partly-paid). In regard to investments in the capital of partnership firms, the names of the firms (with the names of all their partners, total capital and the shares of each partner) shall be given.

- (ii) Investments carried at other than at cost should be separately stated specifying the basis for valuation thereof.
- (iii) The following shall also be disclosed:
 - (a) Aggregate amount of quoted investments and market value thereof;
 - (b) Aggregate amount of unquoted investments;
 - (c) Aggregate provision for diminution in value of investments.

L. Long-term loans and advances

- (i) Long-term loans and advances shall be classified as:
 - (a) Capital Advances;
 - (b) Loans and advances to related parties (giving details thereof);
 - (c) Other loans and advances (specify nature).
- (ii) The above shall also be separately sub-classified as:

- (a) Secured, considered good;
 - (b) Unsecured, considered good;
 - (c) Doubtful.
- (iii) Allowance for bad and doubtful loans and advances shall be disclosed separately.

M. Other non-current assets

Other non-current assets shall be classified as:

- (i) Security Deposits;
- (ii) Bank deposits with more than 12 months maturity;
- (ii) Others (specify nature).

N. Current Investments

- (i) Current investments shall be classified as:
 - (a) Investments in Equity Instruments;
 - (b) Investment in Preference Shares;
 - (c) Investments in government or trust securities;
 - (d) Investments in debentures or bonds;
 - (e) Investments in Mutual Funds;
 - (f) Investments in partnership firms;
 - (g) Other investments (specify nature).

Under each classification, details shall be given of names of the entities (indicating separately whether such entities are joint ventures or controlled special purpose entities) in whom investments have been made (showing separately investments which are partly-paid). In regard to investments in the capital of partnership firms, the names of the firms (with the names of all their partners, total capital and the shares of each partner) shall be given.

- (ii) The following shall also be disclosed:
 - (a) The basis of valuation of individual investments;
 - (b) Aggregate amount of quoted investments and market value

thereof;

- (c) Aggregate amount of unquoted investments;
- (d) Aggregate provision made for diminution in value of investments.

O. Inventories

- (i) Inventories shall be classified as:
 - (a) Raw materials;
 - (b) Work-in-progress;
 - (c) Finished goods;
 - (d) Stock-in-trade (in respect of goods acquired for trading);
 - (e) Stores and spares;
 - (f) Loose tools;
 - (g) Others (specify nature).
- (ii) Goods-in-transit shall be disclosed under the relevant sub-head of inventories.

P. Trade Receivables

- (i) Aggregate amount of trade receivables outstanding for a period exceeding six months from the date they are due for receipt shall be stated separately.
- (ii) Trade receivables shall be sub-classified as:
 - (a) Secured, considered good;
 - (b) Unsecured considered good;
 - (c) Doubtful.
- (iii) Allowance for bad and doubtful debts shall be disclosed separately.

Q. Cash and bank balances

- (i) Cash and cash equivalents shall be classified as:
 - (a) Balances with banks;
 - (b) Cheques, drafts on hand;
 - (c) Cash on hand;

- (d) Others (specify nature).
- (ii) Other bank balances shall be classified as
 - (a) Bank Deposits - Earmarked balances with banks.
 - (b) Margin money or deposits under lien shall be disclosed separately.
 - (c) Bank deposits with original maturity for more than 3 months but less than 12 months from reporting date.
 - (d) others (specify nature)

R. Short-term loans and advances

- (i) Short-term loans and advances shall be classified as:
 - (a) Loans and advances to related parties (giving details thereof);
 - (b) Others (specify nature).
- (ii) The above shall also be sub-classified as:
 - (a) Secured, considered good;
 - (b) Unsecured, considered good;
 - (c) Doubtful.
- (iii) Allowance for bad and doubtful loans and advances shall be disclosed under the relevant heads separately.

S. Other current assets (specify nature).

This is an all-inclusive heading, which incorporates current assets that do not fit into any other asset categories.

T. Contingent liabilities (to the extent not provided for)

- (i) Contingent liabilities shall be classified as:
 - (a) Claims against the non-corporate entity not acknowledged as debt;
 - (b) Guarantees;
 - (c) Other money for which the non-corporate entity is contingently liable.
